REPORT

ANNUAL PHOTOGRAPHY COMPETITION 2020

“LIFE AMID COVID”

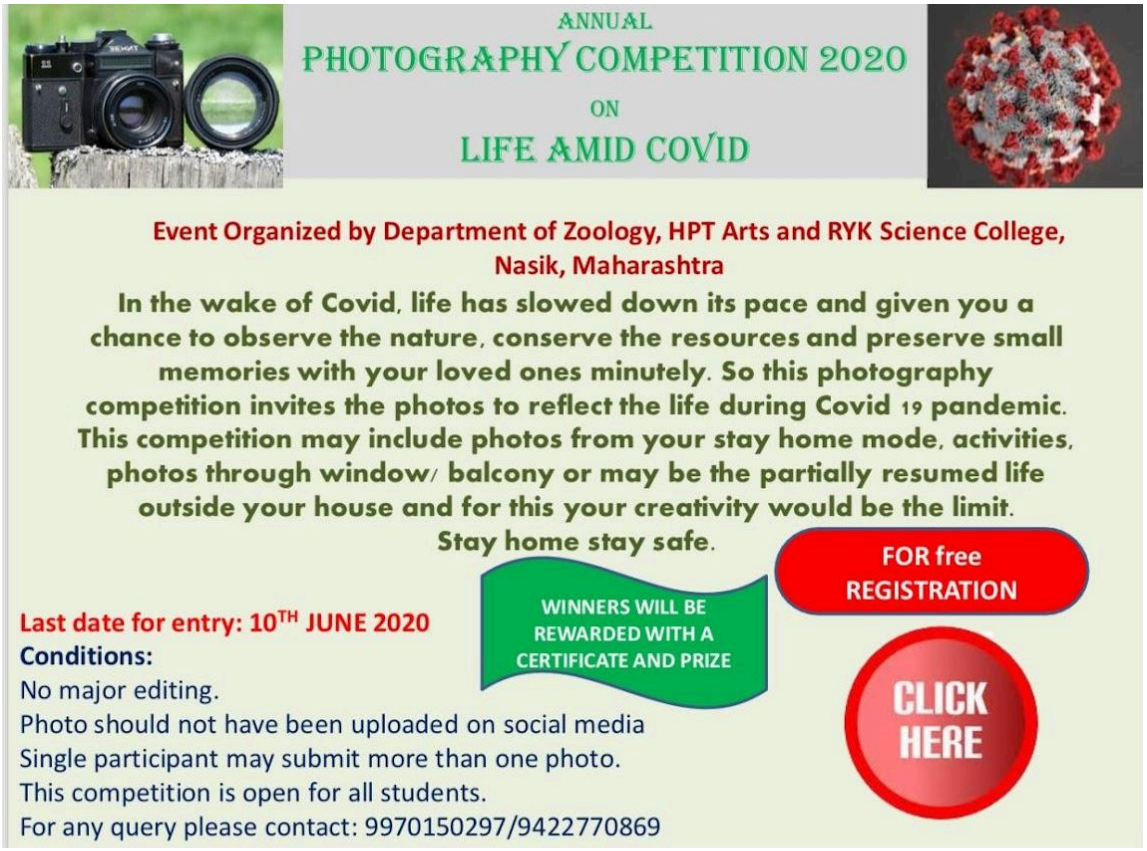

In the wake of Covid, life has slowed down its pace and given us a chance to observe the nature, conserve the resources and preserve small memories with your loved ones minutely. Extraordinary times call for an extraordinary measure so, this photography competition was an effort in that direction. The competition was organized by Dr. Supriya Singh Gupta, Assistant Professor, Department of Zoology, in Gokhale Education Society’s HPT Arts and RYK Science College, Nasik, Maharashtra. The photography competition invited the photos online to reflect the life during Covid 19 pandemic with a title of “LIFE AMID COVID”.

The online entries for this competition were collected between 1/06/2020 to 10/06/2020. This competition has received an overwhelming response from 79 participants from all over India with total collection of 186 photos. The collection of this photography competition includes photos from stay home mode, activities, photos through window/ balcony and the partially resumed life outside the house covering various aspects of the life and has provided us with a different perspective towards this extraordinary situation of Covid 19.

This competition was assessed by a team of a renowned photographer and journalist. Result was declared online along with online certificate only to maintain the Covid guidelines of social distancing and stay home stay safe. I am sure that this competition must have brought a smile or cheered up the participants and people involved in it like organizer and jury in this extraordinary time.
