

Special thanks and consideration to Foye's Principles of Medicinal Chemistry 7th edition. A lot of the information I sourced is from that book. Great read and very well done.

Have a drug you want to learn more about? Interested in a disease state? Curious about a research paper you found? Drop a comment on any reddit post and let me know!

Table of Contents

1. [Beta Blockers](#)
2. [Anticonvulsants - Barbiturates, Hydantoins, Succinimides](#)
3. [Antidepressants - TCAs, SSRIs, and antihistamines](#)
4. [Oral Contraceptives - From Horse Urine to Mexican Yams, Celebrating Reproductive Freedom](#)
5. [Asthma Management Part 1 - Asthma is *really* old](#)
6. [Anticonvulsants - Valproic Acid Derivatives](#)
7. [Dopamine is more than the happy chemical - Treating Parkinson's Disease](#)
8. [Penicillin is apparently better than Arsenic! Who'da thunk! — History of Antibiotic part 1](#)
9. [Normalcy, but at what cost? - Treatment of Schizophrenia and Living with Tardive Dyskinesia](#)
 - a. [An update on dealing with Tardive Dyskinesia](#)
10. [Sweet Sweet Organ Juices - The Origins of Hypothyroidism Treatment](#)
11. [An Infection that even Mercury couldn't Cure - The History of Multiple Sclerosis Treatment](#)
12. [All the Glitters... is actually Gold! - A quick look at Gold in Medicine](#)
13. [SAR of Cephalosporins - Sewage Fungi Attempts to Replace Penicillin](#)
14. [Our Most Lacking Resource is Listening - History, Chemistry, and Treatment of Borderline Personality Disorder](#)
15. [The Sweet Smell of Methamphetamine - A look at the 'handedness' of drug molecules \(chirality and enantiopurity of drugs\)](#)
16. [Demons over the Mind: the History and Chemistry of Treating Migraines](#)
17. [Acne: To Have it is to be Human - the history, chemistry, and applications of acne treatment](#)
18. [From Garden to Scalp, Lice have Changed the World - History and Chemistry of Head Lice Treatment](#)
19. [Pretty Petals, Deadly Poison - The History, Chemistry, and "Applications" of Select Poisons!](#)
20. [Interesting Discoveries while Antiquing Today! Arsenic, Pig Thyroid Ovaries and Testes, and Deadly Plants](#)
21. [Thankfully We Moved on from Beaver Anus - The Chemistry, History, and Applications of Insomnia Treatment](#)
22. [Leaves of Three... Ahh Shit did I Touch Poison Ivy? The history, prevention/treatment, and chemistry of Allergenic Plants](#)
23. [Gifting the Energy to Focus - The treatment, history and chemistry of treating the worlds most misunderstood condition, ADHD!](#)
24. [Drugs without a Home: How Rare Diseases get their Treatments - History and Outcomes of the Orphan Drug Act of 1983](#)
25. [Yes the Penis Mushroom Will Cure Plague, Trust Me - Treatment, History, and Chemistry of Bubonic Plague](#)
26. [A Love that Lingers.... - The History, Treatment, and Chemistry of Chlamydia and Gonorrhea!](#)
27. [Come with me, and we'll be, in a world of Cocaine and Delirium! - History, Chemistry, and Applications of General and Local Anesthetics](#)
28. [Dogs, Cats, Bovines, Oh My! A broad overview of veterinary pharmacy - dogs, cats, barnyard animals, birds, reptiles and amphibians](#)

Special thanks and consideration to Foye's Principles of Medicinal Chemistry 7th edition. A lot of the information I sourced is from that book. Great read and very well done.

29. [We can't uncurve the spine, but we can stop it from getting worse - how the development of Monoclonal Antibodies \(mabs\) treats Ankylosing Spondylitis](#)
30. [My bird gave me Chlamydia :\(](#)
31. [An Open Mind, Full of Holes - A Comparison of two neurodegenerative disease: Creutzfeld-Jakob Disease and Alzheimer's Disease](#)
32. [Engineering Consent - PART 1: A History of Nicotine and How Cigarettes made green the most like color \(and I don't mean money!\)](#)
33. [How the Potato Solved Scurvy \(until it didn't\) - An Exploration of Scurvy in the Context of the 1845-9 Irish Potato Famine](#)
34. [The Quest for Doubt: How the Data was Found and Fought - Part 2 of History of the Cigarettes](#)
35. [The Corporate Structure of the Menstrual Cycle - A Look at how Menstruation Happens and an Exploration of the Cause of PCOS. Also a look at some early 1900s Menstrual "Cures"!](#)
36. [Sometimes medications look like candy... - A look at Toxidromes, the list of symptoms that clue us in on the kind of overdose](#)
37. ['Free the Nipple' shows up in the Burns Post - A Look at the Pathophysiology and Treatment of Burns. Plus Dispelling some Common \(and Weird\) Burn Myths](#)
38. [Nuggets of Green Gold! - Exploring the History, Chemistry, and Uses of the World's Most Controversial Plant, Cannabis! \[Part 1\]](#)
39. [Nuggets of Green Gold! - Exploring the History, Chemistry, and Uses of the World's Most Controversial Plant, Cannabis! \[Part 2\]](#)
40. [The Government Strikes Back! The First Win Against the Tobacco Industry - Part 3 of the History of Cigarettes](#)
41. [Dead Dogs and Fetal Cows line the Road to Insulin - The History, Chemistry, and Development of Insulin!](#)
42. [A Piece of Me I Give to You - The Chemistry and Physiology of Transplant Medicine](#)
43. [Fluids, Tubing, and Glands: A Look at the Male Reproductive System and Exploring BPH!](#)
44. [Do you like bats? Well not for long! - How Rabies devastates the body](#)
45. [Can you hear me now? - Exploration of the Ear: Hearing, Tinnitus, Balance, and Vertigo](#)
46. [A Taste for the Sweet Stuff - Exploration of Sugar, Sense of Taste, and our Mouth!](#)
47. [An Ode to Dehumanizing Sickle Cell Patients -- An exploration of certain anemias and the stigmas that surround Sickle Cell Disease](#)
48. [The Aztecs discovered how to make Corn nutritious--Pellagra and the Bum Doctor](#)
49. [Oh to be young! - Disease of Young Children: Chickenpox \(and Shingles\), Hand, Foot and Mouth, and Pink Eye!](#)
50. [Something something, quacking duck doctors - A look at the Pure Food and Drug Act of 1906 and Quack Medicine](#)
51. [Sometimes it takes an overwhelming breakdown to have an undeniable breakthrough - A comprehensive look at Bipolar Disorder, its treatment, and one person's story \[PART 1\]](#)
52. [Sometimes it takes an overwhelming breakdown to have an undeniable breakthrough - A comprehensive look at Bipolar Disorder, its treatment, and one person's story \[PART 2\]](#)
