Sunday, March 21 at 7pm UTC+0 / 2pm EST

Mediator General: King Tyler Mullins of the Free Nation of New Athens

1. *Opening of the Assembly*

2. *Announce the upcoming Mediator General election*

We are nearly 2 weeks away from the conclusion of the second Mediator General election. I will be running for reelection but be thinking about if you'd like to run as well. The candidate channel is open at #mediator-general-election.

3. *Discuss Desslok's Proposals*

An admittee process

"I want to begin a process allowing a nation to speak for themselves when being admitted. When in a session regarding their vote, an @Admittee role will be given when they can briefly speak about their nation and defend themselves and clear up any misunderstandings the Nation may have made. To help reduce this I'd like to introduce the idea of introduction letters or Personal letters from the leaders of applicant Nations. This is completely optional and not required of any applicants."

The Call for Unity

"There was a case where several nations were opting to rejoin the LIN if they had a contract met. They were rejected as the LIN did not show interest.

However, as Head Chairman I have been preparing an alternative that both sides may agree on. An Executive Decree for unity, to create a LIN that would be able to create a new direction to

take the LIN towards. Making it more inclusive to other Micronations. If we are to be the best this organization can be, we must first start by curbing the problems within our organization. One of them seems to be bias, we would like to hear your thoughts on what you think should be added to the Executive Decree.”

The Departments

“I have seen Lawrence's proposal for a new Departments Bill as well as concern for the LIN ending in similar straits to the Cupertino Alliance. It's important we start small. But there are several positions I want to express interest in opening up as whole new departments in the LIN.”

- **Cyber Security Department**

“This department looks into projection of our Micronational communities online from both hostile micronations and Undercover agents. The Nexus recently dealt with a citizen who was fitting the NI2's memo for Spotting an undercover agent. These forces work to target Micronations without care of what your nation is doing be it legal or otherwise. Their goal is to shut Our communities down and keep Micronationalism from advancing.”

- **LIN Business Bloc**

“This is a plan for LIN States to band together to form small businesses and achieve levels of economic growth never before seen in the Micronational community. The Empire of Etukan has ran the Micronational Economic Forum (MEF) And has made some great progress on this front.”

4. *Lawrence Martin Proposes a Revision of the 2021 Departments Act* https://drive.google.com/file/d/1VsaZCeLFp23IvFZpX-qb4xmdI-80V_W/view?usp=sharing

5. *Adjournment of the Assembly*
