

Nudge me Privacy Policy

Last Updated: August 2025

Hey there!

Welcome to Nudge me! We built this app to help you track your WhatsApp messages without the stress. Your privacy matters to us, so here's everything you need to know - in simple terms! 📱

What Data Do We Collect?

The short answer: Almost nothing!

- ✓ **Your message data stays ON YOUR DEVICE** - we never see or store your WhatsApp messages
- ✓ **No personal information** - we don't ask for your name, email, or contacts
- ✓ **No location tracking** - we don't know or care where you are
- ✓ **No usage analytics** - we don't track how you use the app
- ✓ **No advertising data** - because we don't show ads

Subscription Information

The only time we work with external services is for premium subscriptions:

- **RevenueCat** handles our subscription payments securely
- They only process payment information (not your personal data)
- Check out [RevenueCat's Privacy Policy](#) for details

Age Requirements

Ages 4 and up welcome! 🎉

- This app is designed to be simple and safe for all ages
- We don't collect personal information from anyone (including children)
- Parents: feel free to let your kids use this app worry-free!

How Your Data Stays Safe

- **Everything stays local** - your message timers and contacts are stored only on your device
- **No cloud syncing** - unless you specifically choose to backup via iCloud (that's between you and Apple)

- **No data sharing** - we don't sell, rent, or share your information with anyone

Data Deletion

Want to delete everything?

1. **Just delete the app!** → 📱 All your data goes with it
2. **No accounts to cancel** - because we don't have accounts
3. **No data to request deletion** - because we don't store it

Policy Updates

If we ever need to update this policy:

- We'll update this page with the new date
- Keep using the app = you're cool with any changes
- Don't like changes? Just delete the app (we'll miss you! 😞)

Your Consent

By using Nudge me, you're agreeing to this privacy policy.

TLDR: We barely collect anything, your data stays yours, and we're just here to help you never miss another message! 🚀

Made with ❤️ for people who want to stay organized without sacrificing privacy
