# Renaming a Course on the Dashboard

1) Click the 3 dots in the upper right corner of the coursecard/tile.

2) In the box under "Nickname:" start typing a name for your course. (You cannot delete what is there. If you start typing, it will type over it.)

3) Choose a color for the course.* (This choice only applies to you.)

4) Lastly, click "Apply" to save your changes.

*Note: If you do not see a color change, you may need to turn on "Color Overlay," which is found in the *Dashboard settings* (the three vertical dots at the top-right on your Dashboard screen).
