Assistant Principal Representative	Wall
Principal	

New Business:

Student presentations:

Raleigh Bueschel presented about Dance Team with Ms. Cosma as advisor (and Mrs. Bueschel). NCDTA will contribute coaches and fundraising to get it sanctioned as a sport. The expenses were addressed as well as performance times. It was approved with the provision that music, etc. would need to be approved by the school.

Jack Laxton presented about United Nations club with Mr. Meadors as advisor. He explained that members would research/represent various nations on political (and other) world topics; including leadership roles; meetings will be bi-weekly and last 60 to 80 min. We discussed sustainability and competitions. It was approved.

Raiden Kiger presented Pirates Abroad with Dr. Tarleton as advisor. Students would research a country and then visit there. Costs with fundraising and necessary permission/paperwork for

getting it approved by the district. Approval is pending discussion with Dr. Tarleton for some clarification.

Tucker Hirsh and Sam Goodman presented ACE Club with Mr. Ruggiero as advisor that gives an opportunity to explore engineering/building before deciding to pursue it as a field of study. They discussed activities during meetings; site visits; and guest speakers. Sustainability and leadership were discussed.

Attendance:

Mr. Delucia asked the opinion of the committee as to whether we should enforce paper copies/on-campus requirements for students who are absent too often. The attendance committee has worked to identify students who fall into this category.

We discussed credit recovery (through Edmentum or otherwise)--what is the cut off point for a grade (40/50) that determines the opportunity to recover ? It was brought up that grading and attendance can both be used for this determination.

School Improvement Plan:

School goals: Performance measures set by the county and must be included. Dr. Wall went over the optional ones so we could vote:

ELL statistics, walk throughs, PLC's—aligned units of instruction, recognition program–Piategrams will start soon, Teacher Working Conditions Survey statistics were mentioned, turn and talk, LIM goals and EOC's (percentage of those coming from middle schools).
