

Images can be created using Canva

- Create a custom size
 - Computer size 820-312
 - Mobile size 640x360
- Keep size in mind when creating the larger one to make sure everything can be seen on a mobile version
- You want the images to be enticing

Have a photo of you that you love but don't love the background? Use remove.bg

Main Profile Facebook Header

- Include an image of you
- Tell about your group
- Tell what your group is about and who you help

Once the photo posts, in the comments, give a link to book a free consultation and link to your group.
