

## Privacy Policy - Rehman Games

[June 07, 2022](#)

Your Privacy and data safety is at highest priority for us!

Welcome to the services of **Rehman Games**!

We at **Rehman Games** studio are strict to protect the privacy rights of our users. This Document defines the way we or our partners collect, utilize, manage and store user data including personal information. This data can be provided by the user in many ways like our mobile games on either Google Play Store, Amazon or iOS App Store. The scope of this Policy is limited to Information received or collected by **Rehman Games** via any related Service of **Rehman Games** studio you used.

NOTE: Use of the service shows that you are agreeing to this Privacy Policy, if you do not agree with the Policy please do not use the Service.

Below is how we (may) collect and use your data (if we have to).

### Game Data Collection:

We at **Rehman Games** studio does not intentionally store or collect any personal user data but our distribution or ad partners may collect (Depending on the requirements of Game) user data as log file when you download and play our games. You can ask for access and to delete your personal data contacting directly our mentioned service partners.

### ADVERTISEMENT:

We use Advertising features in our Games and other Services. Advertisers may acquire and use your personal information like Mac Address, IMEI, IP and Geolocation for ads targeting to offer you interest based ads. This is only used to show advertisement for your location and as per your interest.

NOTE: Installation of any of our app or game containing ads expresses that such data may be shared with the advertiser.

### USE OF INFORMATION:

Your personal and non-personal information can be used, both individually and in aggregate, in the following ways:

To operate our business and to enhance and personalize your game experience, including to:

Operate, improve, and develop our games and services;

Populate online leader boards and enable online challenges;

Help you find your friends or share with your friends **Rehman Games**;

Facilitate sharing on social networks;

Serve and measure the effectiveness of advertising;

Measure the health of our services;

We do not disclose any of your information without your approval but if you agree your data can only be shared for a limited scope of use like Marketing purposes etc. Third-party sharing includes Advertisers, sponsors, business partners and publishers etc. We use Unity 3d for game development and Ads network SDKs for advertisement purpose. All the Services and SDKs integrated have their privacy policies defined explicitly to protect the user data to fool proof extent according to rules set by GDPR. You can visit some of them through these links;
