

Name: _____

Date: _____

This [slideshow](#) has all the items you need.

Evidence is facts. Evidence is based on tangible things. Evidence comes from your senses: what you see, what you hear, what you touch, what you smell. Reasoning comes from your mind, your thoughts, your emotions, your experiences. The conclusion you draw is an assumption based on these things. Let's practice this with some items your teacher will show you.

Item	Evidence	Reasoning	Conclusion
