PROJECT EVALUATION: What preparation was involved? What was done at the project? Was the project successful? Should we do the project again? Please feel free to add any other information. Please write on the back of this paper! ©

There was no preparation done prior to the project. Members were assigned tasks in the kitchen and taught the basics of their work. Before the game, they prepared utensils and condiments for use during the game. As the match started, members worked to serve food, take orders, and deliver items. The project was successful and we were able to serve many customers, we should definitely do it again.
