RoboCup 2019 3D Soccer Simulation League

Information, schedules and results

Instructions for uploading binaries

Teams has two options for uploading binaries:

1) Plug a laptop in the available ethernet cable in the competition bench and ssh to 10.10.103.252 and copy (scp) your binaries to your home folder
2) Copy your binary to a flash memory and plug it in one of the three first computers in the competition bench and copy your binaries to your home folder. Remember to check if the *x* permission is assigned to your *start.sh* scripts and binary files. Probably you need to run a *chmod a+x* to these files after copying them.

In both cases you need to the unique user and password given to each team in the beginning of the competition.

Logs are available at folder /home/teams/logs in the server 10.10.103.252. Plug your laptop in the available ethernet cable and ssh to the server to copy the logs you want.
