*Lakewood Ranch, FL*

### **College Coach/Scout Comments:**

- "We have been fortunate to have seen you play over this past year and believe that you have all the tools to be an outstanding player for (our D1 University)! At the (Champions League) event we thought you were one of the most impactful players we saw all week. As a winger you showed how dynamic you can be both on and off the ball. Your pace and athleticism came to your benefit when making dangerous runs off the ball, as well as in 1v1 situations where you seemed to just glide past players. As a forward we really appreciate your competitive mentality, as it's clear you are so concentrated on getting into the final third to create scoring chances for yourself and your teammates. You work very hard both in and out of possession, which is something that we value and instill in our players. You have so many qualities that we think can make you an impactful player for our program."
- "I watched you play at the (College ID) camp this past weekend and was very impressed with your play. You are good on the ball, you finish well in front of the goal, you work hard defensively and have great movement off the ball."
- "I thought you brought a tenacity to the field and enjoyed seeing you threaten backlines with your movement and first touch attacking open space."
- "Wanted to follow up in regard to Morgan. We thought she was hard, willing to get stuck into tackles and bring a physical, disruptive presence to the game. We also liked the fact that she looked to shoot from distance when the opportunities presented themselves. Looking forward to watching more of Morgan this spring/summer."
