

I am Joshua Gray Hamilton.

I love piano.

Some of my favorite artists are Ray Charles, Jerry Lee Lewis, Elton John and Billy Joel.

I appreciate all styles of music especially blues, boogie, country and rock n roll.

I've had the opportunity to entertain audiences worldwide, from the Las Vegas strip to the Mediterranean.

My ultimate dream is to produce and promote concerts for independent artists.

I continue to work with various projects from mobile apps for the music industry to record releases.

I've been doing all-request piano shows since he was a young boy! My family and friends would ask me to play songs from the radio and that's how I learned to play piano.

I started as a dueling piano player in 2008 and quickly found my way to Las Vegas where I was blessed to share stages at The Mirage, The Encore, The Paris, Harrah's, New York New York, Park MGM, The M and many more.

My favorite part of being a performer is connecting with the audience when they request songs. "It's always so cool when someone requests a song and you are able to play it well and you see them smile or laugh or dance! That's the best!"

I look forward to hearing from you,

Joshua Gray Hamilton
