

A NEW CHAPTER

independent / private / selective
MultiMuse from Various books/movies/tv

01.

INTERACTIONS

I only interact with mutuals, and people 18 and over. So if I follow you back that means I am open to interacting with you. Though keep in mind I do have a job and offline things I have to tend to, so replies might take a while sometimes. And I will just drop threads if I just stop vibing with it, it's nothing personal my interests shift sometimes

03.

SHIPPING

I am selective when it comes to shipping, there has to be good chemistry between the characters, and we have to have good communication between us as muns, and I am exclusive with smut-related NSFW threads unless it is implied and fade to black/time jump.
NSFW tag;

06.

OTHER

Everything here is not purely based on the books/movie/tv show. It's creative writing with my own thoughts on things, so if you don't like how I write someone/thing, you can unfollow or just not interact with said muse.
I am here to have fun and to try to relax
So I hope that's why you're here, and I hope we can have some good fun

02.

INBOX

I love ask memes, though random asks, in general, are always welcomed, in character or head canon asks. The more, the merrier, though if I don't get to your question as quickly as others, I might be waiting until I have a good response or Tumblr ate it, so you can always IM me to see if I actually got it. Also, flirty or aggressive asks will be dealt with as it seems fitting for those who answer it.
Most of the characters here are gods and could end a mortals' life with ease and without any qualms.

Any in character or hc asks that do not specify a muse(or two) or says 'all muses' will be deleted

Also you are always welcome to turn an ask into a thread!

04.

BLACKLIST

This blog can contain graphic content Gore and adult situations that may be touched on briefly. I will tag triggers as; *trigger* tw
If you need things tagged, just ask, and I'll do my best to keep things tagged properly.
My triggers;

- * Visual: medical things like surgeries and bloody medical stuff
- * Visual: choking
- * Visual: Drowning
- * Visual: self-harm

COURTESY

Don't god mod, which is a given.
Hate and anti and OOC Drama is not welcome
Most gods and mythical beings are part of the LGBTQ+ so those themes are bountiful here
Just be respectful and we shouldn't have any problems.
