"We buy The Resources that Every Vendor is Selling."

The Problem

One of the greatest problems I witnessed when I studied Business is the Resource Gap between Resource Generator/Vendor and Buyer.

The Buyers are there. The Vendors are there. Making Connections between the two is a challenge that has created a lot of problems in Delivery, Reach, Marketing, Profits, and Resource Flow.

The Noise that exists just to get above the Chaos of Buying and Selling is a nightmare... with no plans to make it better.

Until now.

I talk to people and they are in Need... but they can't find the Vendors.

"It's too noisy to be heard out there."

Vendors are abundant... but they can't find the Buyers. Meanwhile Buyers are starved for everything the Vendors are selling.

What they are missing is a Regulator to Manage Resource Input and Output.

The Solution

Enter Community Gaia's "Stone Soup" Forum and Market : Resource Bank.

The "Stone Soup" Forum and Market : Resource Bank is an Instant Buyer for every Vendor. No questions asked, we want what you are Selling for our Bank. We buy what you have, you get your Profits with no delay. We Sell your Product to our Community.

As we help the World and Nourish the World, People can buy from the Bank, Buy direct from you, or we use what we bought from you to Nourish the World.

Win-Win-Win

Vendors and Tradesmen instantly have the Profits they need without worrying about how they will market, attract, sell, or advertise.

Buyers can bring their Ideas to the Bank, make withdrawals with our Pay-It-Forward Loan, and/or Trade their Resources for what they have.

Here, every Member is a Buyer, a Provider, a Vendor, and a Client. It's everything you would need and get without any of the wait.

The Resources can stay inside the Forum and Market for our use or the use of others. Vendors just sell what they have when they have something to sell.

The Nourishment And Growth Respite Center

Is Mental Health getting in your way to produce and live? Our Resources provide you with the Rehabilitation you need while we provide Trade Skill Training so you can come back and Sell your Resources to the Forum and Market to keep your Momentum going.

How does it work?

We do the Marketing for you. With Profits and Resource Scarcity no longer driving the Needs and Choices of the People, Health improves, making Resource Production more efficient.

Think about it. How much easier could you work and focus on your Dream Production, if you knew you had a Buyer the MOMENT you were done Producing?

How much easier could you create and build knowing you wouldn't have to "find your niche" and Master Business and Sales Skills you don't enjoy?

Instead of Sales, Survival, and Staying Alive being the Focal Point of your Productivity, Dream Production could be the Focus of your Productivity. You just focus on the Highest Quality you can produce and take your time producing. Enjoy it. We'll take care of everything for you.

The Resource Bank would immediately buy your Product.

You would have the option to Sell for Coin or Trade of Resources or any hybrid of the two. If you require more than you have to give, you simply submit your Pay-It-Forward loan, take what you need and relax. Focus on your Dream Production.

Flourish. Work on your Health knowing you know where your next Buyer will come from.

Need an Investor? We do that too.

Are you an Investor? We do that too.

The Forum and Market turns every Vendor into a Distributor for our Bank.

You can sell to us and still sell to Clients. And, we direct Clients to you. The goal is to keep the Inventory Moving, Balanced, and Regulated so there is always plenty for all.

And NO Competition at all. No Marketing Noise to rise above. In fact, the world is about to get really quiet. No one has to sell again.

Picture This

As orders come in, we pull up our Inventory and fill orders, pulling from around the globe to meet supplies. We contact you for Delivery so you fill the orders as they come in. You handle Distribution and Shipping while we handle Marketing, Sales, and Orders.

We turn your Business into our Warehouse.

We regulate resources and keep them moving so everyone gets what they need.

Build Your Dream and Follow Your Life Passion With Peace Of Mind

As you train and develop your skills, we transfer your Resource Product right to Forum and Market while you train.

Our Team works in selling, marketing, and messaging while you just think, dream, and create. You keep 100% Rights, Ownership, and Credit of your work.

Create and Build to your heart's content, knowing you're nourished no matter what. Focus on Quality and Passion instead of making ends meet.

Have a new idea no one has ever thought of before? We have you covered! Our Workshops let you invent as your heart allows. And when it's done, our Team figures out with or without you – your choice – what you have made and where best it belongs!

We are equipped to adopt the Weird and Unusual.

New Job Titles Created For Every Dream

The Jobs the Resource Bank will provide includes positions never heard of before now.

Economists will aid Resource Movement. Teams of Executive Producers will have access to our Archivists who oversee Inventory to ensure the best match for Events, Projects, and Businesses.

Marketers will provide polished messaging and Delivery to ensure all Resources move and each Resource is presented Ethically and Honestly.

Quality of Resources is evaluated fitting the needs of each Buyer.

Nonprofits are connected to The Resource Bank to ensure their constant supply is met.

Musicians, Artists, Dancers, and Writers are accepted into our Theater and Arts district as Patrons are matched to them.

Bottom Line

Bottom line, there are too many people with too many resources of “A” and not enough “B” that are not moving. Resources MUST move. The Movement of Resources is The Current. And right now, too many Resources are NOT moving. And that is the problem.

We have a lot of people who CAN do “X,” but they can't Sell. They can't Market. They can't get heard above their noise. So their Resources aren't moving.

So sell to us. We will move your Resources for you and get this Current moving for everyone... and keep it moving.
