

## **SHOW THE WORLD WHERE YOU'RE STRIKING**

Now through Friday, let's flood our Twitter and Instagram feeds with #StrikeWithMe and #StrikeWithUs signs to show the world where we're striking and what we're striking for!

Here's what to do:

1. Write or type up a sign that says "I'm striking in **[INSERT THE CITY/TOWN YOU'RE STRIKING IN]**" Include the hashtag #StrikeWithMe below. Bonus points if you include what you're striking for! (If you're an org, use "we're" and #StrikeWithUs.) You can also record a selfie video if that's preferable!
2. Take a photo (or video) of you or your org holding your sign.
3. Tweet and post your photo to Twitter and Instagram with the hashtag #StrikeWithMe (or #StrikeWithUs). In your caption, ask 3 friends if they'll strike with you!

Here are some sample captions to get you started:

**Video script:**

On September 20th, I'll be on strike because I choose the future. [If adult, "I chose the future generations.]

I'm joining hundreds of thousands of people across the United States — and the world — who will go out into the streets to demand immediate action on the climate crisis.

Scientists agree that we have about 10 years to save our communities, future generations and the planet from extreme natural disasters.

But if we're going to make that deadline — and save ourselves — decisive steps need to be taken right now.

Unless we put pressure on our world's leaders, nothing will change. Everything will be at risk.

We are at a crossroads in the fight against the climate crisis: are we going to choose money and power, or will we choose our youth, the future?

So strike with us. Strike on September 20th like your future depends on it — because it does.
