What's exactly on offer?

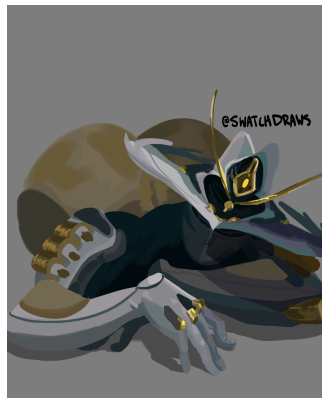

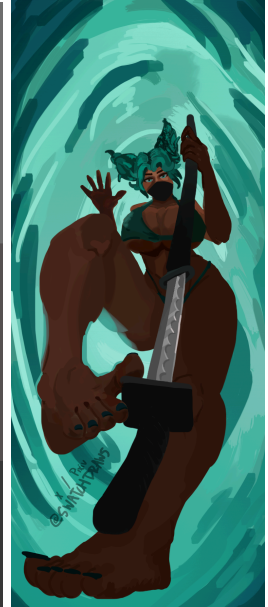

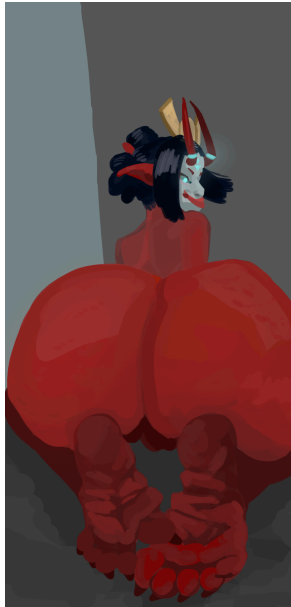

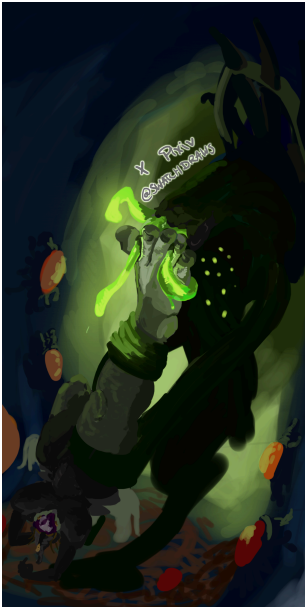

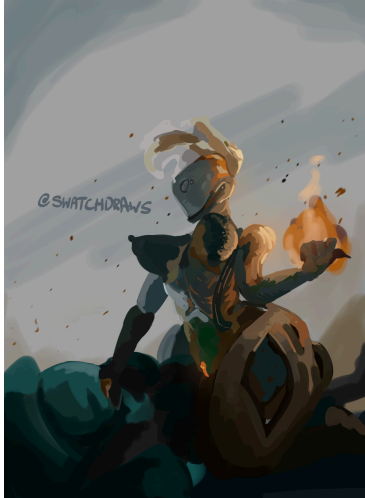

This commission is solely for character illustrations only. I will draw a character of your choice on one main condition (and a few others): they are not a real person. Any pose, any outfit, any interaction, any background. The commission is purely digital and will be emailed to you.

You name it, I draw it. Let's work together then shall we?

Commission Restrictions

I won't draw

- Minors (Aged up characters are fine)
- Gore (Bruises and small cuts are fine)
- Real People (References are fine)
- Furry (I do not specialise in this)
- Beastiality (I do not specialise in this)
- Scat, Vore (I do not specialise in this)
- Male on Male relations (Not a fan)

I will draw

- NSFW and SFW of any fictional characters
- Cyborg or humanoid robots
- Mechs
- Male on Female relations
- Female on Female relations
- Particular fetishes (Feet, Bondage, Gangbang)

If your commission is something that's not in this list, inquire about it [here](#)

Pricing Guide

Please Note: this will not determine the final price of your commission, it will only provide a rough estimate of what you will be expected to pay.

Variables that will determine the price of your commission:

- ★ Complexity of the idea
- ★ Number of Characters
- ★ Background Type
- ★ If the commission will be for personal or commercial use

★ Pose / Angle complexity (foreshortening)

Characters

Number of Characters	Price (USD)
1 (Starting Price)	\$120
+1	+\$80 per character

All commissions must contain at least one character. If you want a background only piece, send me an email [here](#).

Background

Type of Background	Price (USD)
Plain Background (Any Colour)	Free
Colour Gradient	+\$10
Detailed Background	Cost Based on Complexity

In your order you will have to state what colours you would like (for plain and gradient backgrounds). Detailed backgrounds will require references so I can have a good idea of what you want.

Personal / Commercial Use

Personal Use	Free
Commercial Use	+\$20

Personal use or Commercial use?

To put it simply, if you are planning to sell a product or service using the commissioned final piece, or using it in advertising that would be considered commercial use. If this does not apply to you then I would assume personal use.

Process

1. Commission Form Submission

After you have read through this information sheet carefully, you can fill out the request form which will send me all the information and references about your proposed commission idea. Your request form will appear in my email.

2. Approval

Before the start of your commission, your idea will need to be approved by me to make sure it's something I am happy to work with.

If your request gets denied the commission process will end here for that particular commission, in that case put through a different commission idea.

This process usually takes 3 days maximum

3. Payment Method

After approval you will be asked to either pay the full price upfront or pay in two installments (half and half) once before the sketch phase has been sent and once after the sketch phase.

Once you pay, the commission will officially start.

Payments will be taken over paypal

Refunds will not be offered during any points of the process

4. Sketch Phase

In less than a week after payment, you will receive a rough sketch of your commissioned work.

During this point you will have a chance to request any small changes to the work or tweak the pose a little bit. This will be your only chance to make any changes to the work.

If you do not respond in time and you've made the full payment already, the commission will go ahead without your requested changes so please keep an eye on any emails.

5. Full Render

After a week (2 weeks maximum) you should receive the full finished piece through email. You will be sent two files:

Psd (Photoshop Original File)

Png (Condensed High Quality File)

Thank You

Thank you for reading through the commission sheet, hopefully I'll be able to speak to you soon and crack on with your wonderful ideas!
