

Creative Writing Elective

Intro Text: Creative Writing

Miss Larkin: Hi, I'm Miss Larkin and I teach Creative Writing. The Creative Writing course is for students who love writing, but you do not need to be experienced in creative writing to take this course. At the beginning of the course, we go over the basic techniques for creative writing, some grammatical techniques, showing don't telling, some fun hands-on activities; after that we go through four major units which are personal narrative nonfiction, then the short story unit, a poetry unit and finally a one act play.

Madison Evans: Hi, my name is Madison Evans and I took Creative Writing this year because I thought it'd be fun to write something other than boring research papers.

Zach Beal: My name is Zach Beal, I took the class because I thought I was pretty good at writing and to take this class to learn how to write because I realized that I wasn't all that good and I had a lot to learn.

Abigail Morrow: Hi, my name is Abigail Morrow. I'm in Creative Writing with Miss Larkin. It's a really interesting class. We explore every aspect of creative writing from poetry, to short stories, to one act plays, and I think it's a very worthwhile course to be a part of.
