International Assembly of the True Jesus Church
Managing Guide of the World Evangelism Fund

March 23, 2005 Revised

1. In order to support the world evangelism, the 8-2 WDC resolved to launch a movement entitled "A dollar a day" to solicit contributions for World Evangelism Fund. In principle, this fund would be primarily used for world mission and divine work in new pioneering areas.
2. One department of each GA, Coordination Board/Centre and IA-directed church shall be designated for this movement. Its mandates are to elaborate on the plan and to encourage contributions. It shall issue receipts for contributions and calculate the total contribution. It shall also submit a contribution report to IA's Department of Financial Affairs every six months.
3. Half of the total contributions in the name of world Evangelism shall be deposited in the bank account of IA's US office, or in the bank accounts of depositaries which IA's Department of Financial Affairs established in various countries.
4. Each GA or Coordination Board/Centre may open a special bank account to collect the remaining half of the total contribution. Various units may manage and use this fund to assist related evangelistic works.
5. This guideline shall be executed after IA EXCO approval.
