

WHAT THE TECH? Charged & Ready For Car Season

By: Mitch Mitchell

Many of us have to store our Mustangs for the winter months & now many are stored longer due to the 2020 COVID-19 pandemic. Especially on the new Mustangs a lot of technology components still have amps pulling so keeping your battery charged is essential.

A battery tender trickle charger is the perfect tool to have. These have connectors to do an easy plug in feature. This *What The Tech?* shows you how to add the plug, a little hidden, to keep or plug in your battery tender (shown on a 2019 GT/CS).
