

Bootcamp Deliverable 2

Entry Parameters:

- Check the 9DMA, 21DMA, and 50DMA, to see if the price is above or below these levels.
- Check where the price is concerning the zones I have drawn in the charts.
- Check RSI 14. Play Long calls if $RSI > 50$ and play short puts if $RSI < 50$. Use this as confluence to the trade.
- No red folder event coming up (No FOMC), No earnings.
- Check if the price is above VWAP on the 15m chart.

Exit Parameters:

- If price breaks and holds below 50MA on Daily charts. Candle close below Hourly or Daily 50MA.

Risk per trade:

- Keep the monetary size of trades as consistent as possible, such as \$2000 per trade.
