

Mummy Sugar Cookies

from melskitchencafe.com

One batch of your [favorite sugar cookie dough](#), recipe follows

One batch of [frosting](#) that is stiff enough to pipe, recipe follows

Mini M&M's

Make sugar cookies according to the recipe. Roll out and cut into thick circles, about 2- to 3-inches in diameter. Bake and cool.

When cooled, fit a piping bag with the basket weave tip (or another similar tip with a flat side), and fill the bag with frosting. Turn the tip flat side up and pipe strips across the cookie in varying directions, until the cookie is covered with mummy stripes. Place two mini M&M's for eyes.
