

LESSON PLAN

Week of: April 20th - April 24th

Class: STEM 7th Period

Topic/Assignment Name: STEM Packet Week 3. Please log into Google Classroom to find your assignments.

[Google Classroom](#)

You may complete any activities from this packet or any on-line activities. Please feel free to work on any activities in the prior packets that you have not already completed.

Or

You can submit an essay telling me about any STEM type activity/project that you worked on at home.

Lesson Activities

Objective/Goal: I can do hands on activities to further my knowledge of Science, Technology, Engineering, and Math.

Activity/Outline: Choose 1-2 activities to complete. Write a paper about your project in Google Docs and share or submit it to me. Please include a picture or video if possible.

Or

You can submit an essay in Google Docs telling me about any STEM type activity/project that you worked on at home. For example: tell me about something you have done at home and explain why it is a STEM concept. Some examples are cooking/baking - explain math & science concepts used, building fence - explain math, science, & engineering concepts used, gardening/yard work - explain science, math, engineering concepts used.
