

SteemChurch Telos Expansion: your NEW SteemChurch Telos account

The SteemChurch Telos expansion is about establishing ourselves on a new platform capable of facilitating commerce, banking, commerce and logistics - opening up many more opportunities than mere social media and blogs.

Telos is one of the most advanced blockchains on the planet. Incredibly fast and highly scalable. Built from the same blockchain architecture as EOS, Telos can do everything EOS can do. At the moment, however, Telos is relatively unknown and resources are cheap. Which means that we are establishing here at an ideal time.

For the first access to your account we recommend that you download SQRL to your PC.

Tutorial To Configure Accounts In SQRL Wallet

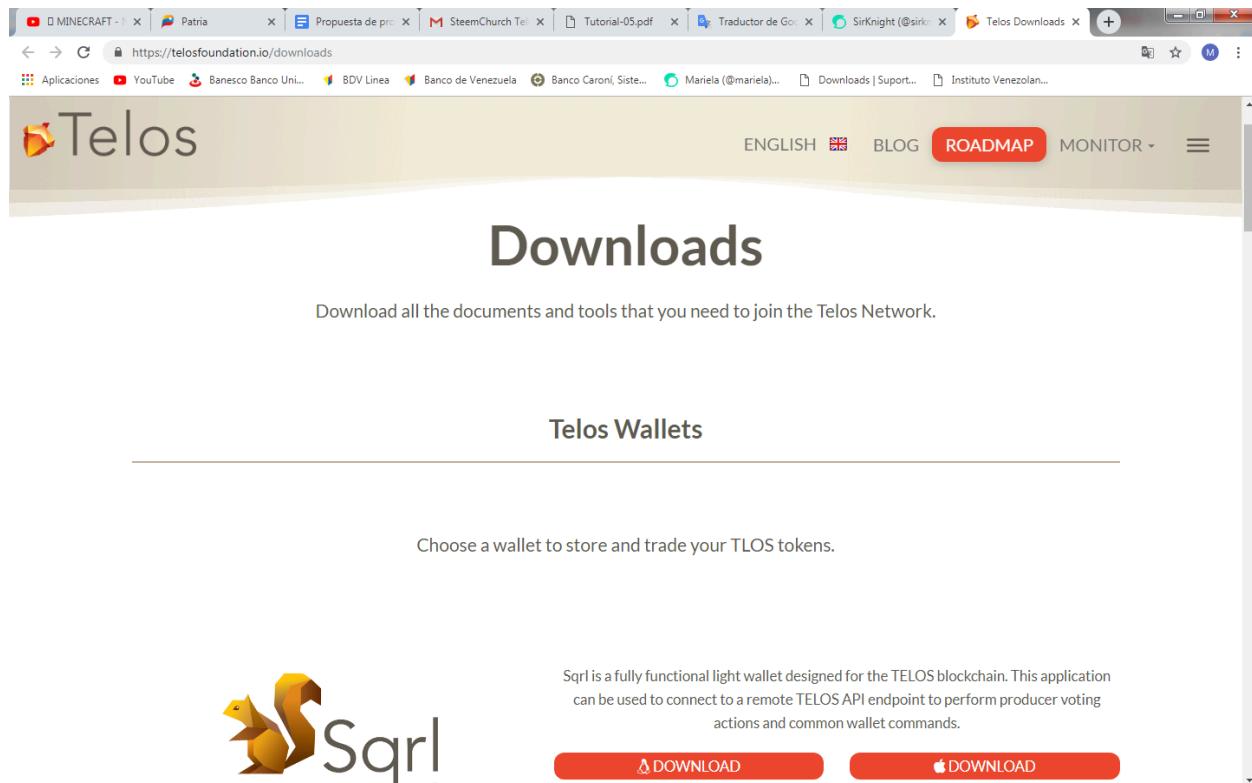

The version to be used of the Sqrl wallet is 1.0.5

<https://telosfoundation.io/downloads>

Telos Foundation

The Telos Blockchain Network is a joint project by experienced members of the EOSIO block producer community.

DOWNLOAD AND INSTALLATION OF THE SQRL 1.0.5 APPLICATION

The screenshot shows a web browser window with multiple tabs open at the top. The active tab is 'Telos Downloads' at <https://telosfoundation.io/downloads>. The page content includes the Telos logo, navigation links for English, Blog, Roadmap, Monitor, and a menu icon. The main section is titled 'Downloads' with the sub-section 'Telos Wallets'. It features a small image of a squirrel-like creature next to the word 'Sqrl'. A descriptive text block states: 'Sqrl is a fully functional light wallet designed for the TELOS blockchain. This application can be used to connect to a remote TELOS API endpoint to perform producer voting actions and common wallet commands.' Below this are two red download buttons: one for 'Windows DOWNLOAD' and one for 'Apple DOWNLOAD'.

The screenshot shows a browser window with multiple tabs open at the top. The main content area displays the Telos Foundation website. At the top right, there are links for ENGLISH, BLOG, ROADMAP, MONITOR, and a menu icon. Below this, a banner says "Choose a wallet to store and trade your TLOS tokens." Two wallet options are shown: Sqrl and Scatter.

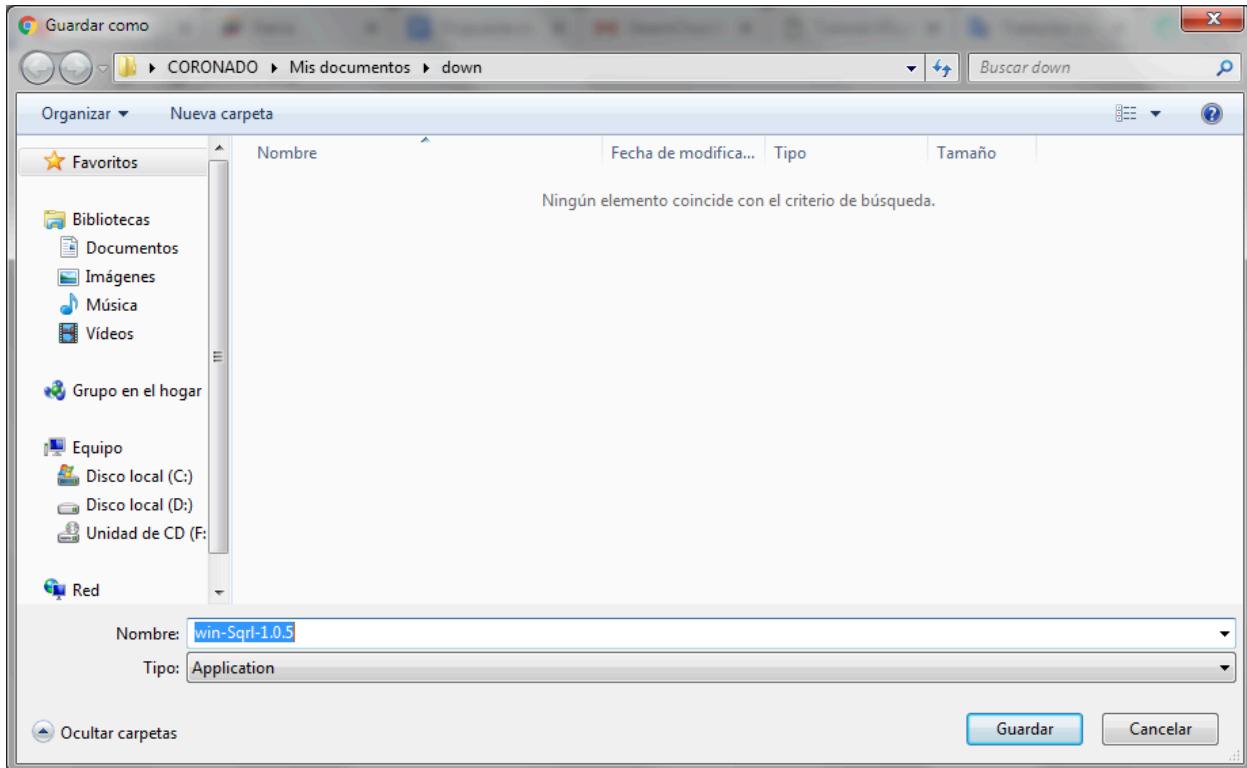

Sqrl: Described as a "fully functional light wallet designed for the TELOS blockchain." It features a squirrel logo and four download buttons: "DOWNLOAD" (Windows), "DOWNLOAD" (Mac), "DOWNLOAD" (Windows), and "SOURCE".

Scatter: Described as making it easy to sign transactions on a blockchain. It features a blue background with white text and four download buttons: "DOWNLOAD" (Windows), "DOWNLOAD" (Mac), "DOWNLOAD" (Windows), and "SOURCE".

At the bottom of the page, there are two links: "https://github.com/Telos-Foundation/Sqrl/releases/download/1.0.5/win-Sqrl-1.0.5.exe" and "Access and manage your hardware wallets with My Fos Wallet (MEOW), a sleek and".

Depending on the operating system of your PC, you select Downloads, in this case the operating system you will work with is Windows, select Downloads with the Windows icon

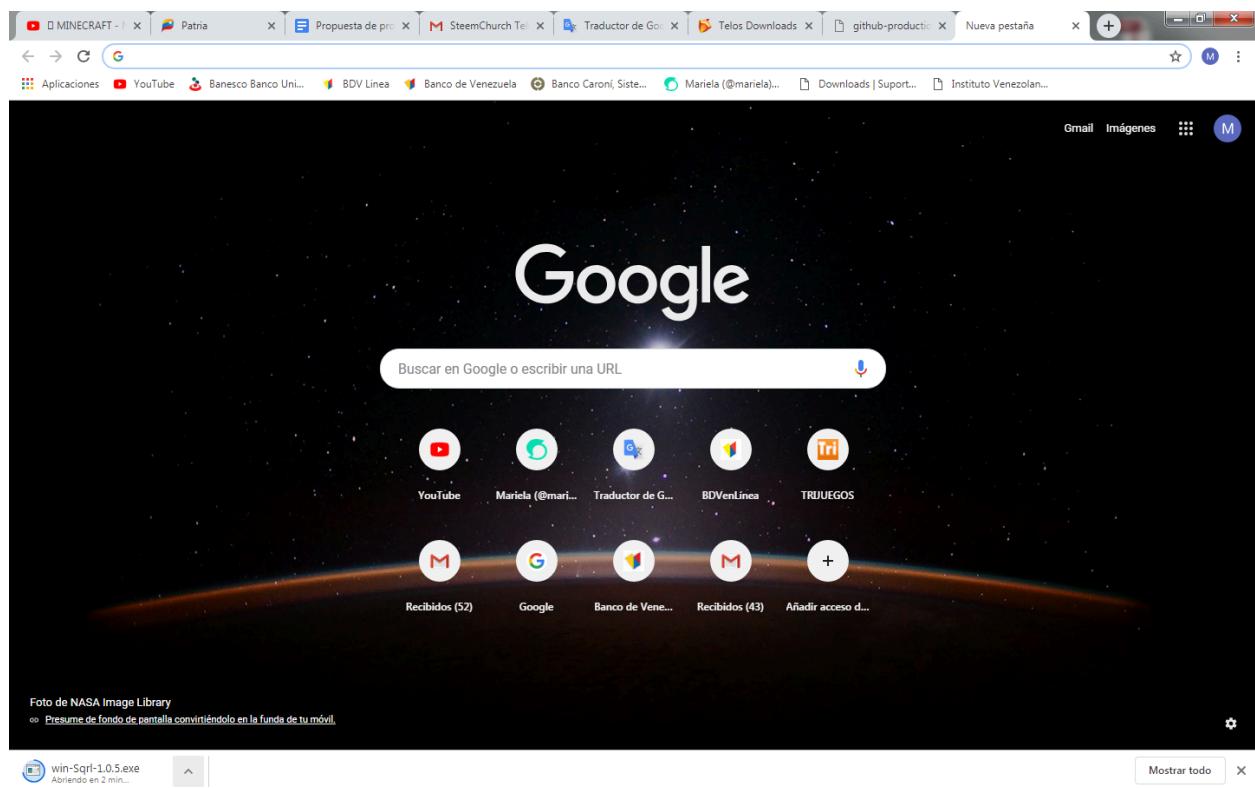

Dependiendo del Sistema Operativo de tu PC seleccionas Downloads, en este caso el Sistema Operativo con que se va a trabajar es Windows seleccione Downloads con el ícono de Windows

We start with the download; Once the application is downloaded, it should be housed in a folder, as you can see in the following figure:

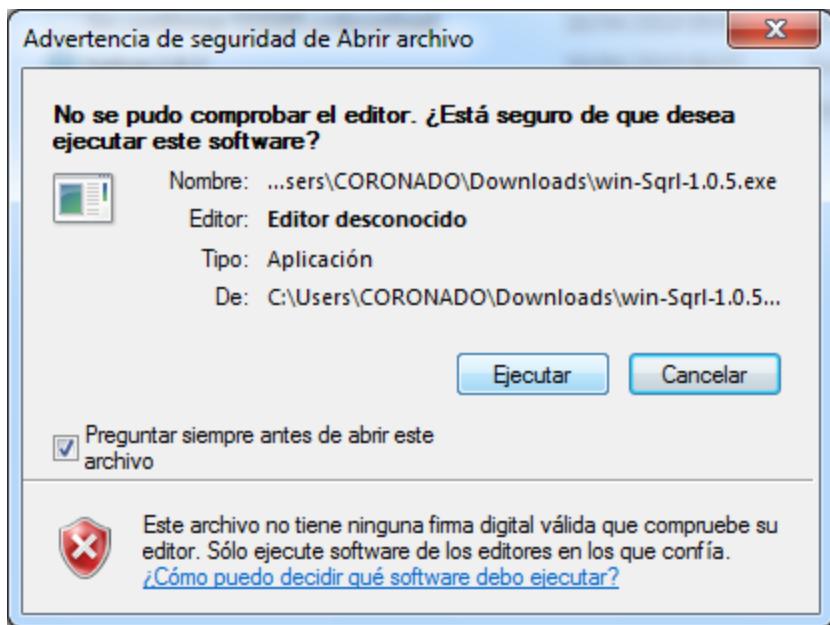

Comenzamos con la descarga; una vez descargada la aplicación, debe alojarse en una carpeta, como pueden observar en la figura siguiente:

consolidation expansion steemchurch Telos

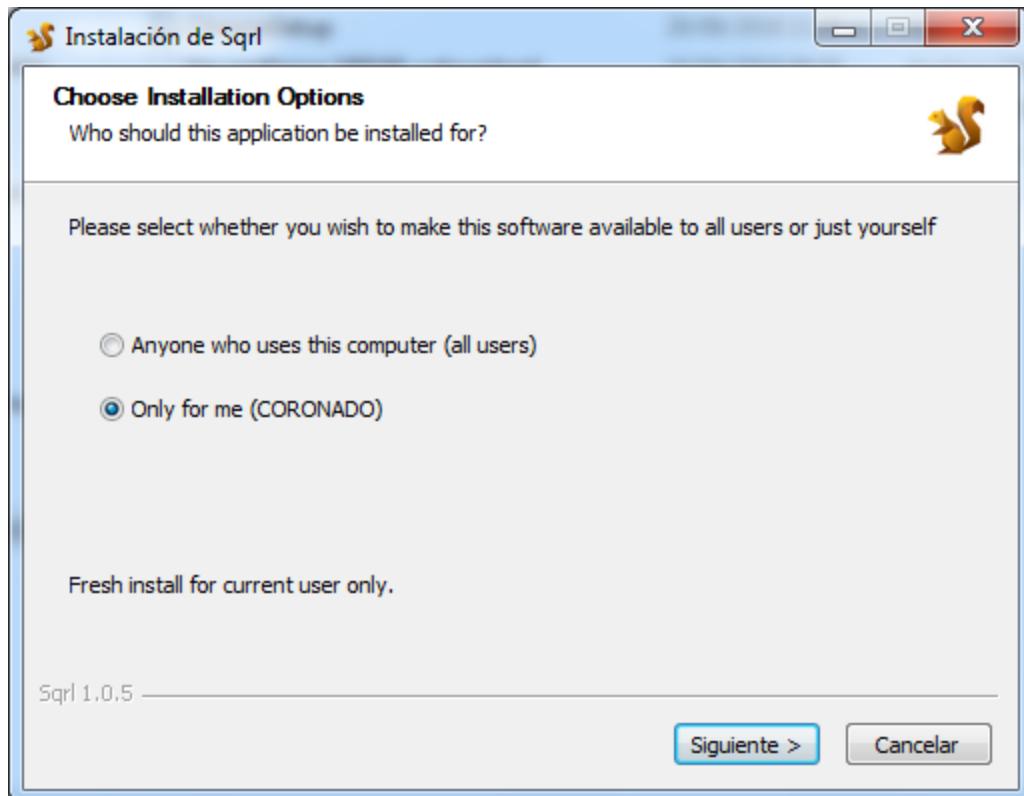

Select execute, as shown in the following figure:

Seleccione ejecutar, como muestra la figura siguiente:

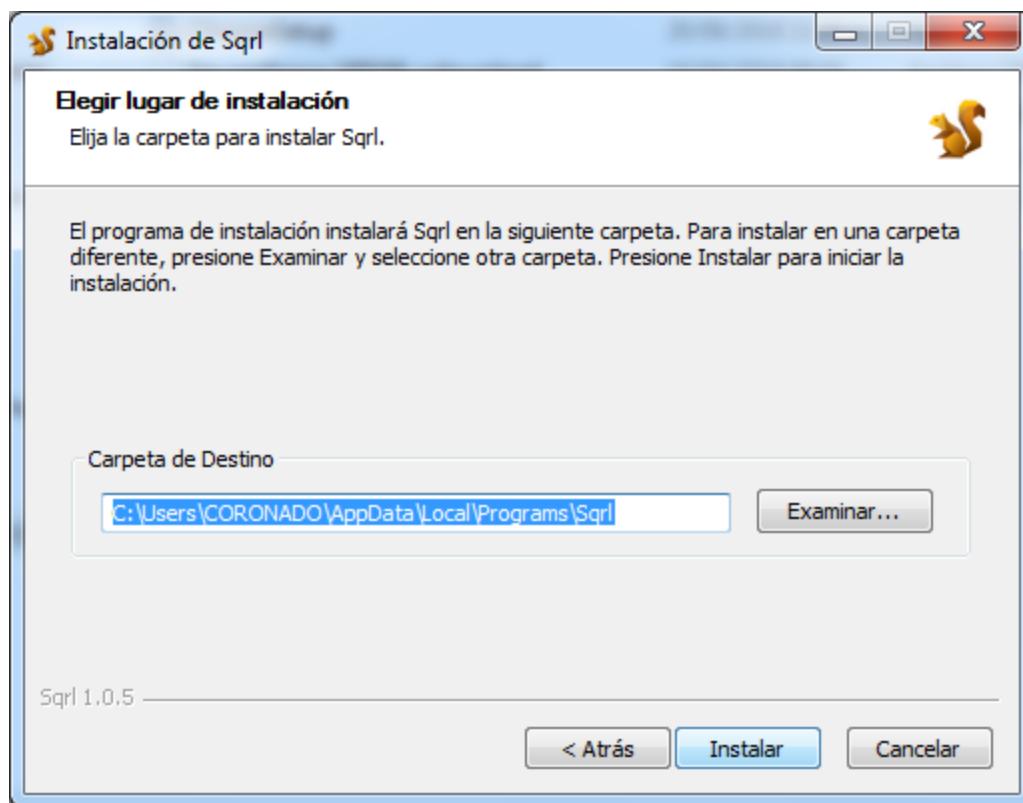

Select whether you wish to make this software available to all users or yourself, select and press the following button as shown in the following figure:

Seleccione si desea que este software esté disponible para todos los usuarios o usted mismo, seleccionamos y presionamos botón siguiente como muestra la figura siguiente:

Press Install to start the installation

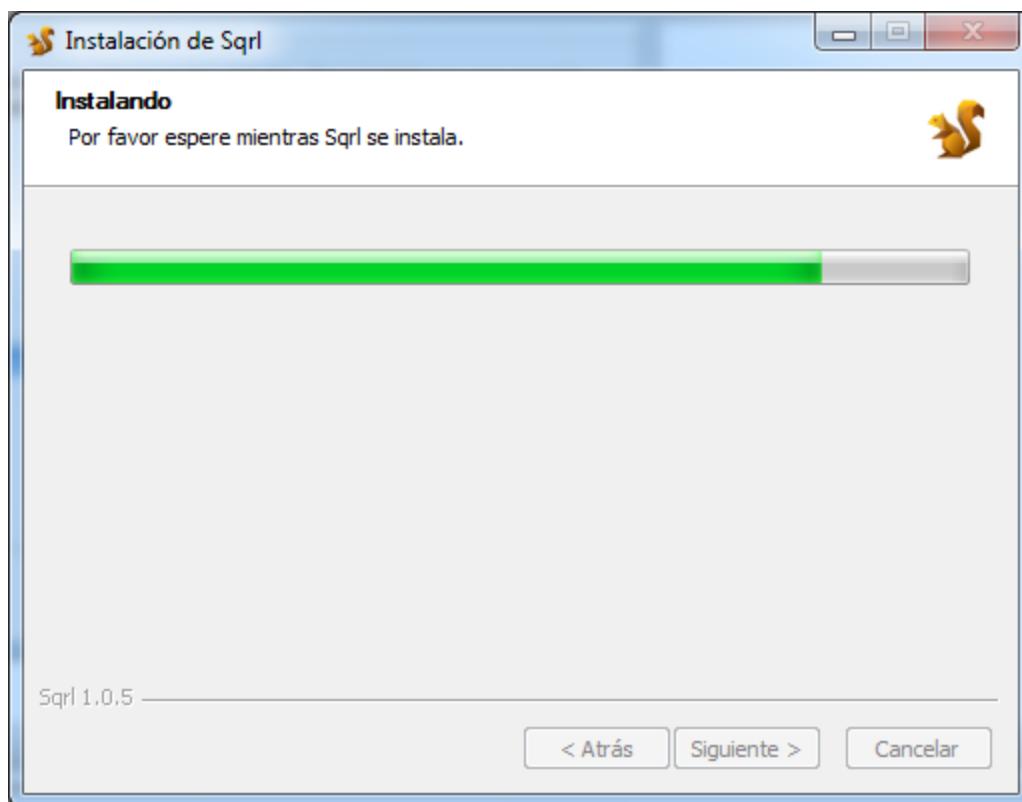

Presione Instalar para iniciar la instalación

consolidation expansion steemchurch Telos

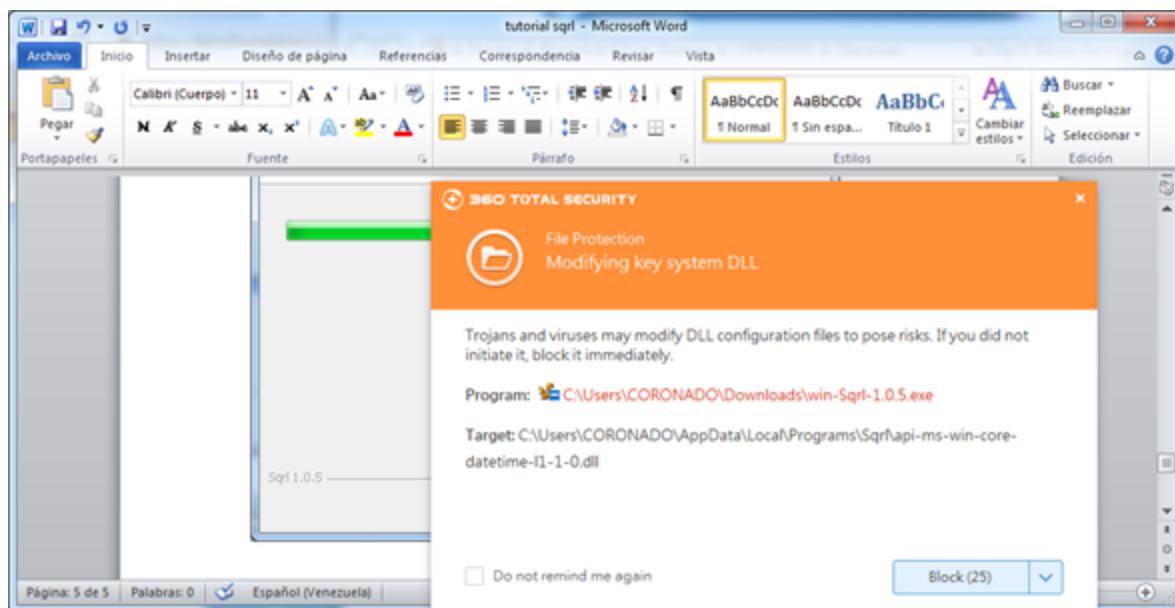

Wait while it is installed

Espere mientras se instala

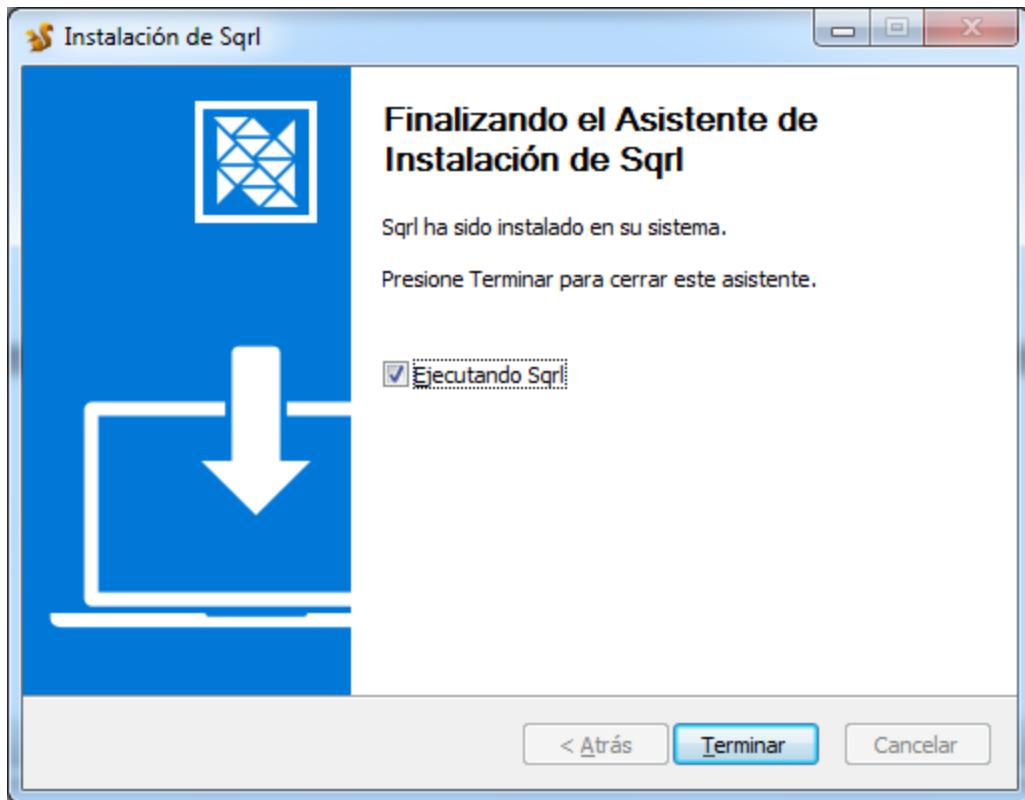

You probably have to uninstall the antivirus before continuing to install the application.

Probablemente tenga que desinstalar el antivirus antes de continuar la instalación de la aplicación.

Press Finish to close this assistant

Presione Terminar para cerrar este asistente

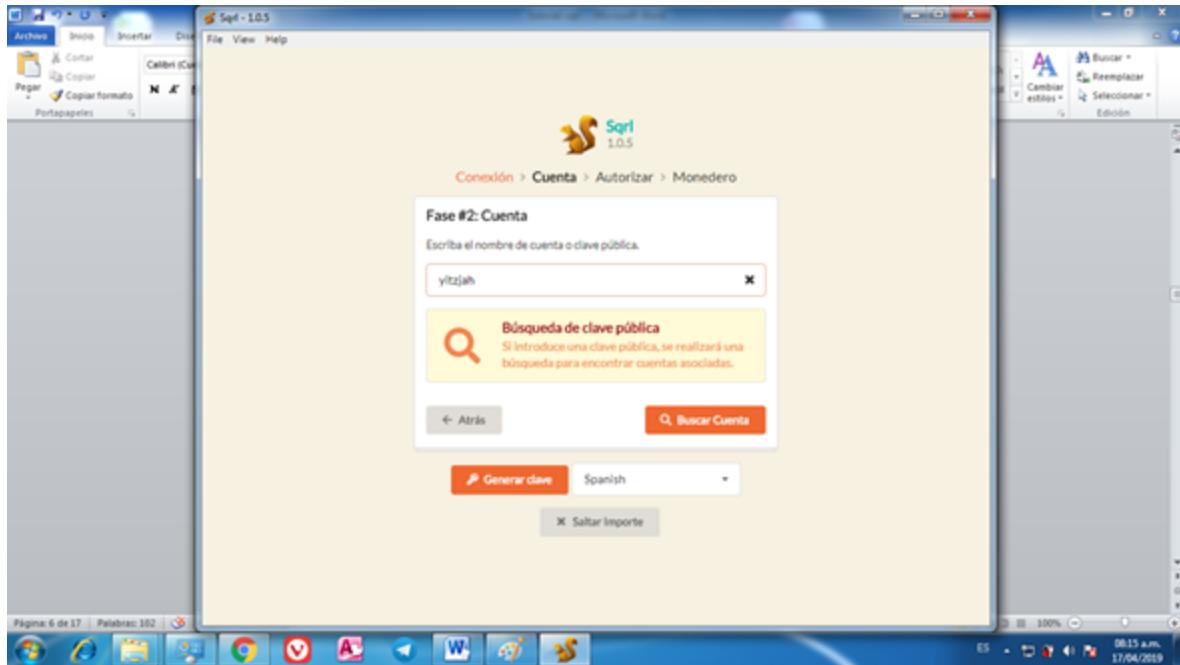

In this Tutorial for configuring Sqrl wallets we will present two modalities:

1. We will begin by downloading the sqrl wallet, to configure those accounts created for the first time in TELOS, as the accounts with the extension .jc for example.

Connecting to the Server

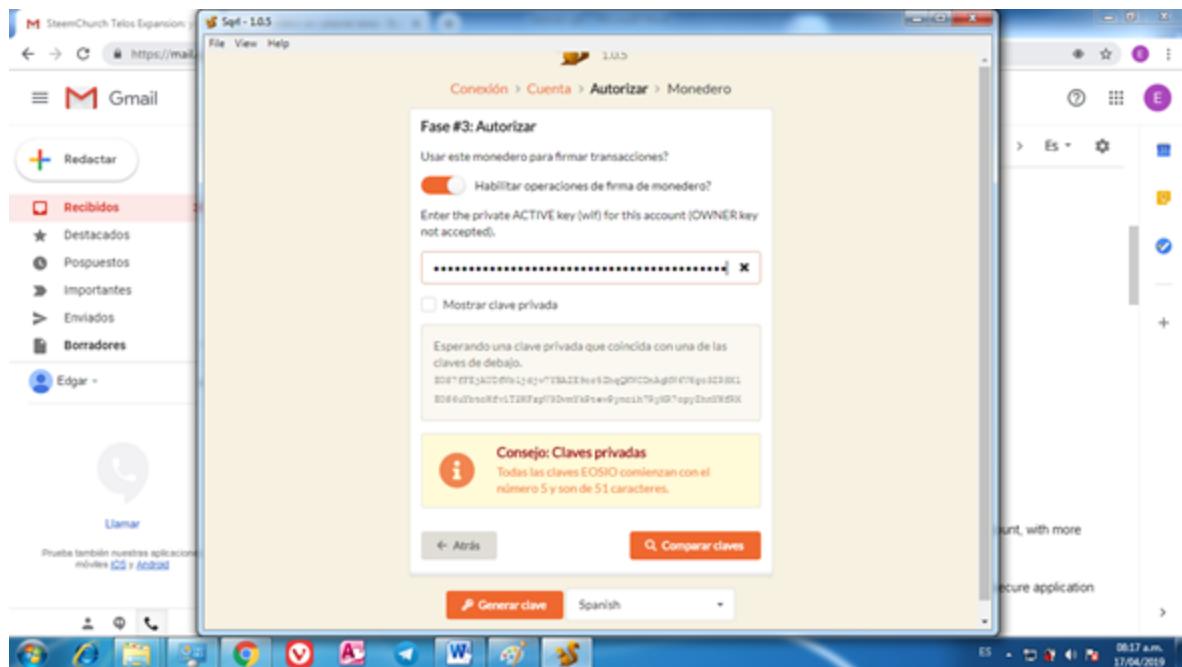

Conectando con el Servidor

Enter the name of the account or public key as shown in the example without forgetting the extension .jc or .arb and select Search Account

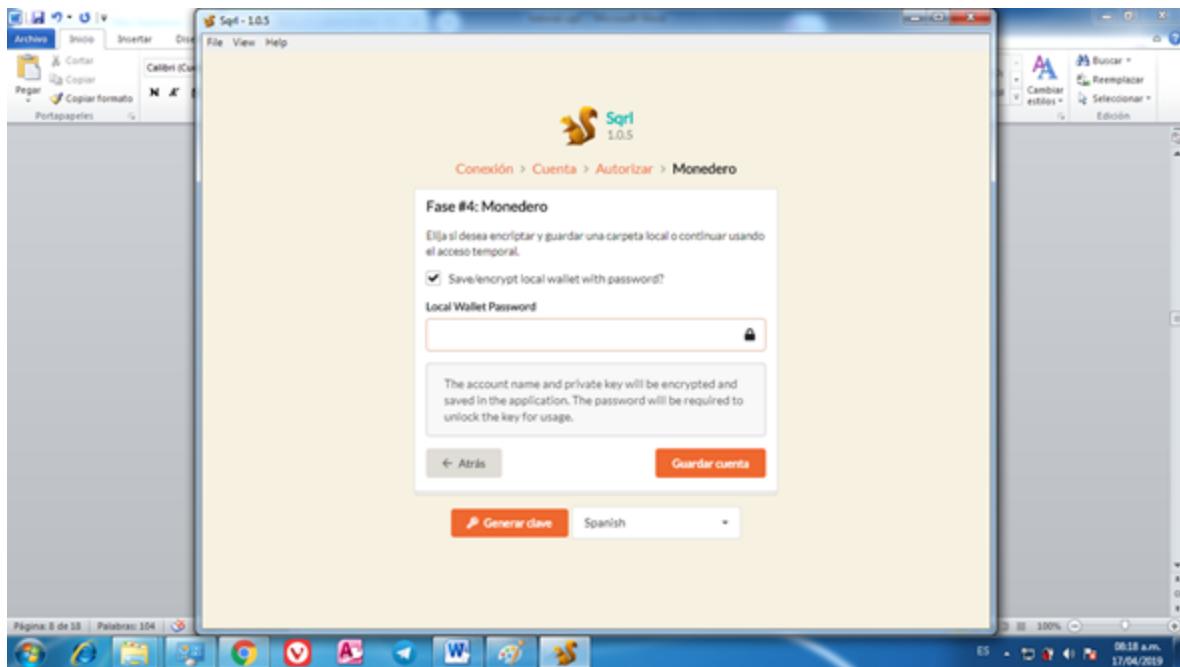

Escriba el nombre de la cuenta o clave pública como muestra el ejemplo sin olvidar la extensión .jc o .arb y seleccione Buscar Cuenta

consolidation expansion steemchurch Telos

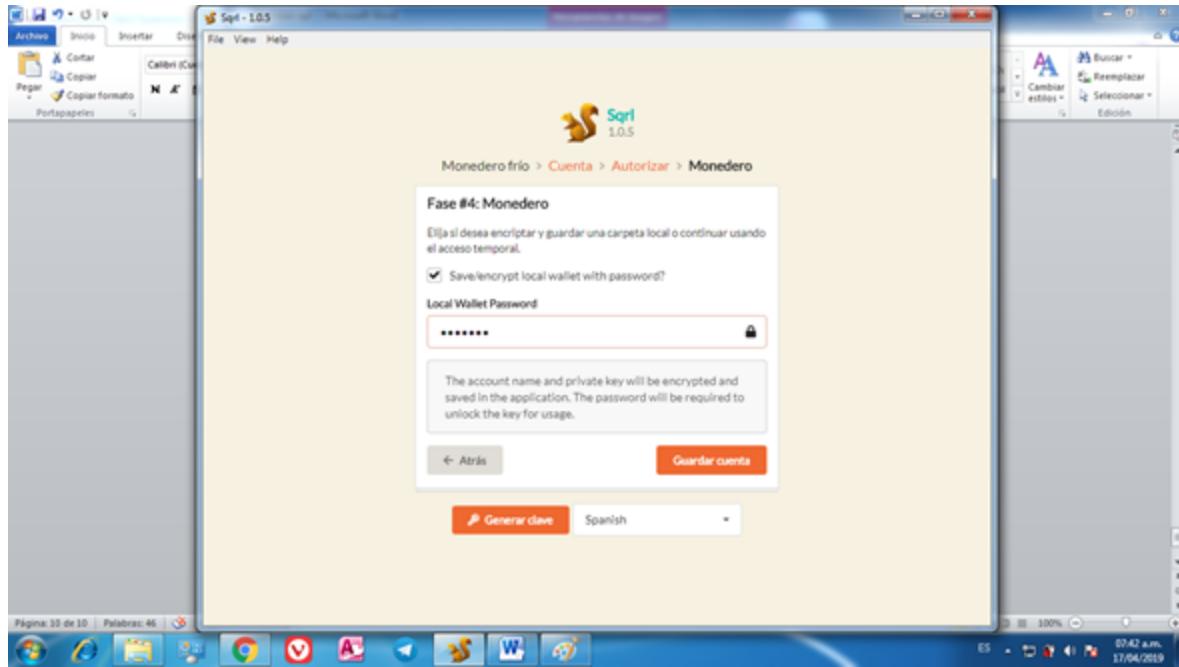

Colocar Clave Privada correspondiente a su cuenta y seleccionar Comparar Clave

Place Private Key corresponding to your account and select Compare Password

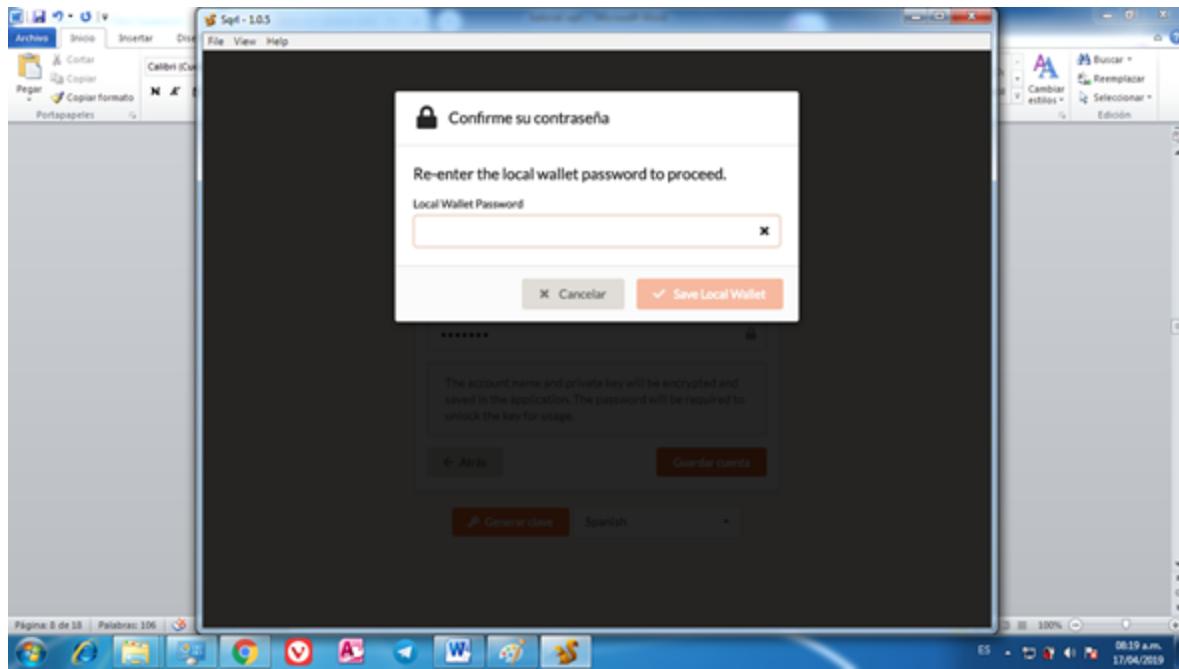

Place a Local Authorization Key entry to your wallet and select Save account

Coloque una Clave Local de Autorización entrada a su monedero y seleccione Guardar cuenta

Enter the Password generated by you no more than 8 characters and click on Save account

Escriba la Clave generada por usted no más 8 caracteres y hacer clic en Guardar cuenta

Confirm your local wallet password

Confirme su contraseña de monedero local

Finally, your account has already been configured in your wallet and now you can see all the information contained in your wallet.

Finalmente ya su cuenta ha sido configurada en el monedero y ahora Podrá ver toda la información contenida en su monedero

2. This modality is for those users who had already obtained accounts under another extension other than the .jc such as, for example, Telos arbitration workers use an account with the .arb extension. But now you need to configure your Telos account, here it is very simple and short the process because previously you have already downloaded the Sqrl 1.0.5 application and you are only going to Import the new account. Let's see:

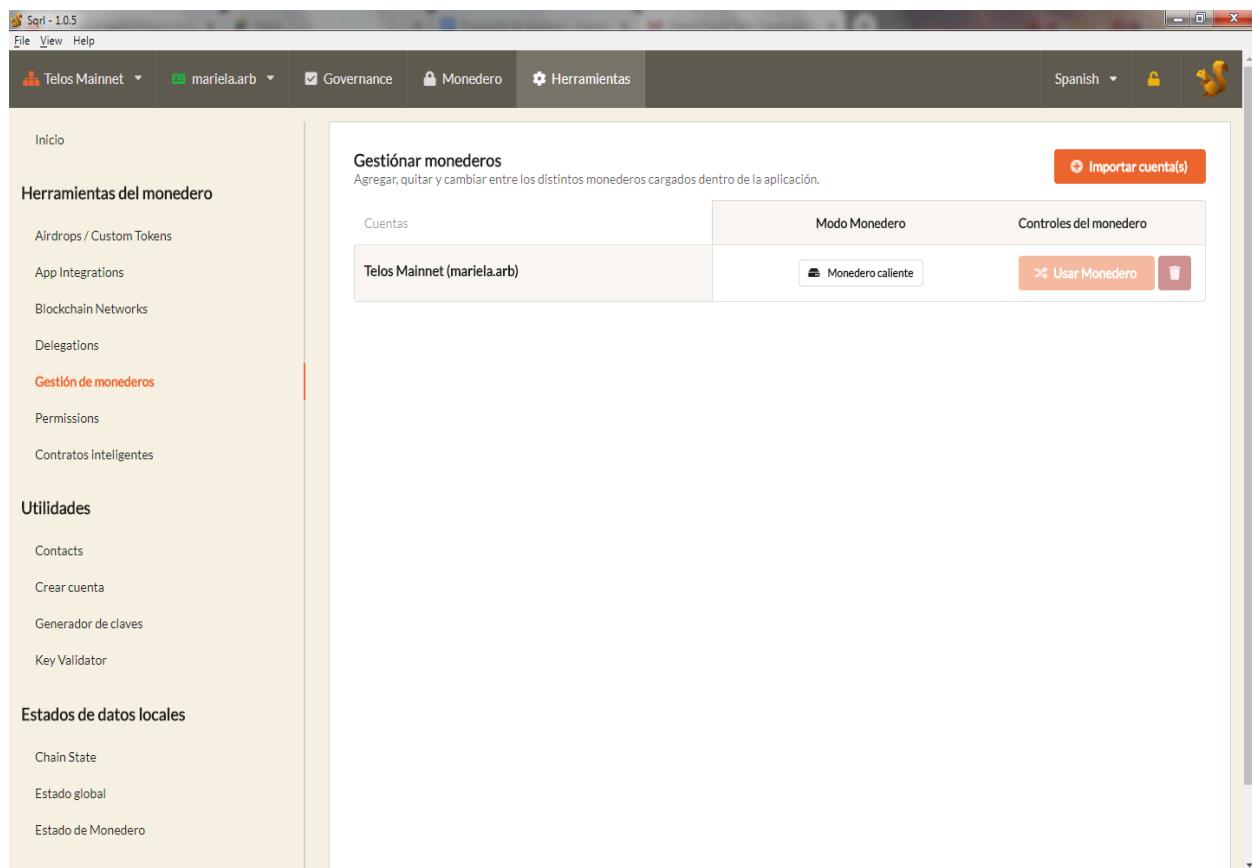

As you can see, this is a wallet with an account created with the extension .arb, but now you need to configure the account with extension .jc in the wallet.

Select the Tools Menu - Management of purses, as can be seen in the previous figure.

Como puede ver, esta es una billetera con una cuenta creada con la extensión .arb, pero ahora necesita configurar la cuenta con extensión .jc en la billetera.

Seleccione el Menú Herramientas - Gestión de Monederos, como se puede ver en la figura anterior.

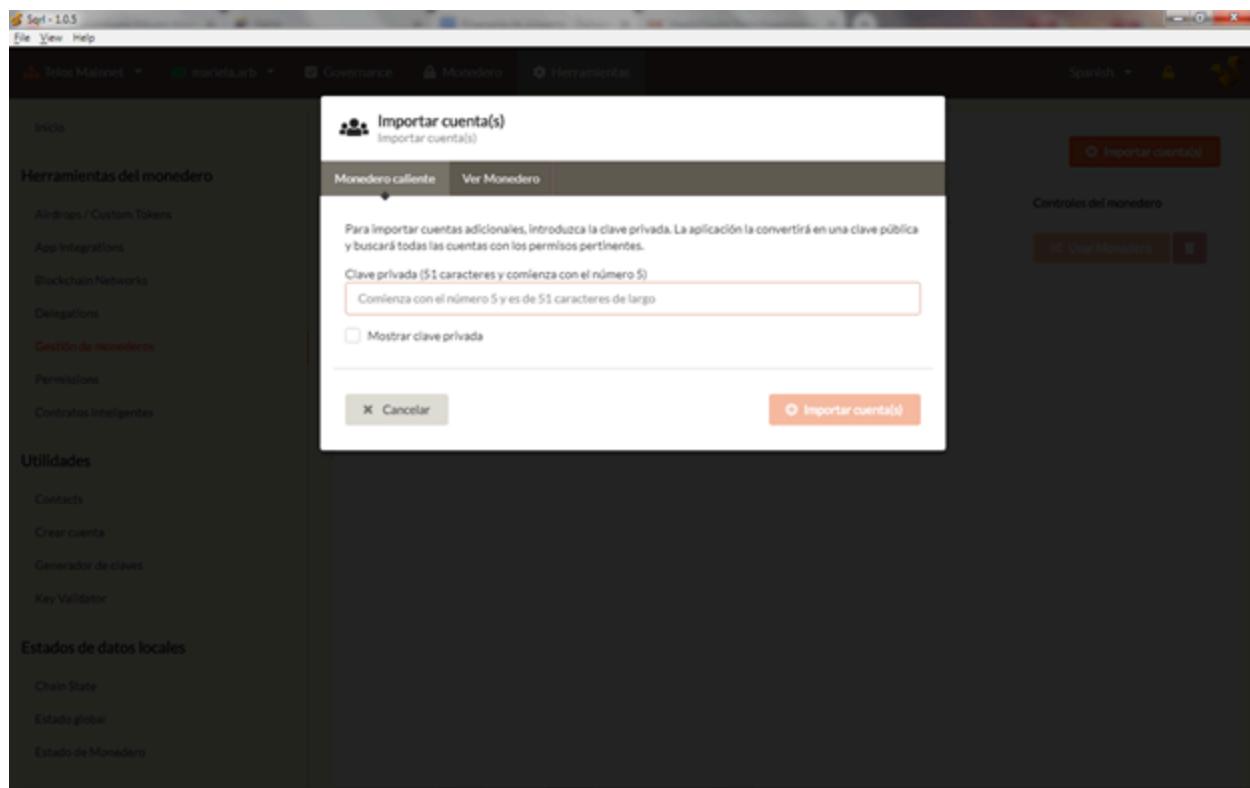

consolidation expansion steemchurch Telos

It can be observed: The first created account .arb appears, we select the option **Import accounts**

Se puede observar: Aparece la primera cuenta creada .arb, seleccionamos la opción **Importar cuentas**

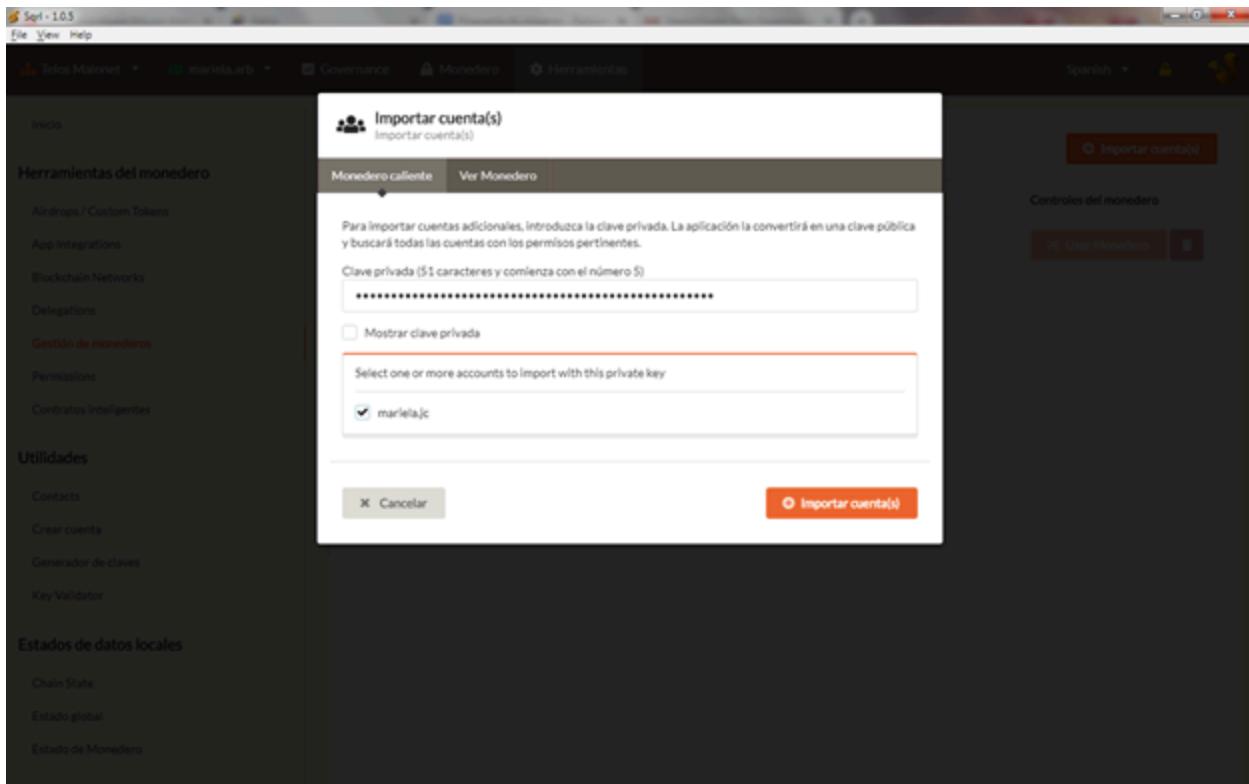

consolidation expansion steemchurch Telos

A dialog box appears that says enter the Private Password of the account.jc created in TELOS, which was previously sent to the email.

Aparece un cuadro de diálogo que dice introduzca la Clave Privada de la cuenta.jc creada en TELOS, que se envió previamente al correo electrónico.

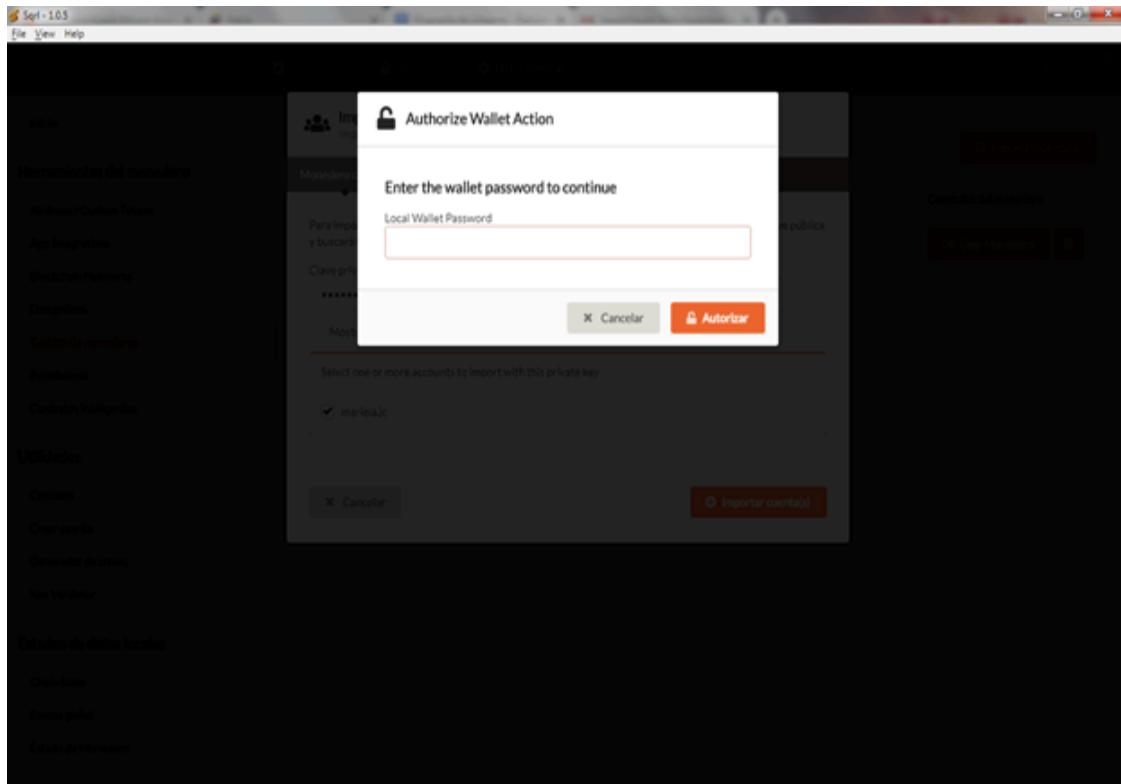

consolidation expansion steemchurch Telos

- ❖ Enter the private key
- ❖ The name of the account with the extension .jc should appear in the dialog box select one or more accounts to be imported
- ❖ Select and click on Import account.

- ❖ Introduzca la clave privada
- ❖ El nombre de la cuenta con la extensión .jc debe aparecer en el cuadro de diálogo seleccionar una o más cuentas a importar
- ❖ Seleccione y haga clic en Importar cuenta.

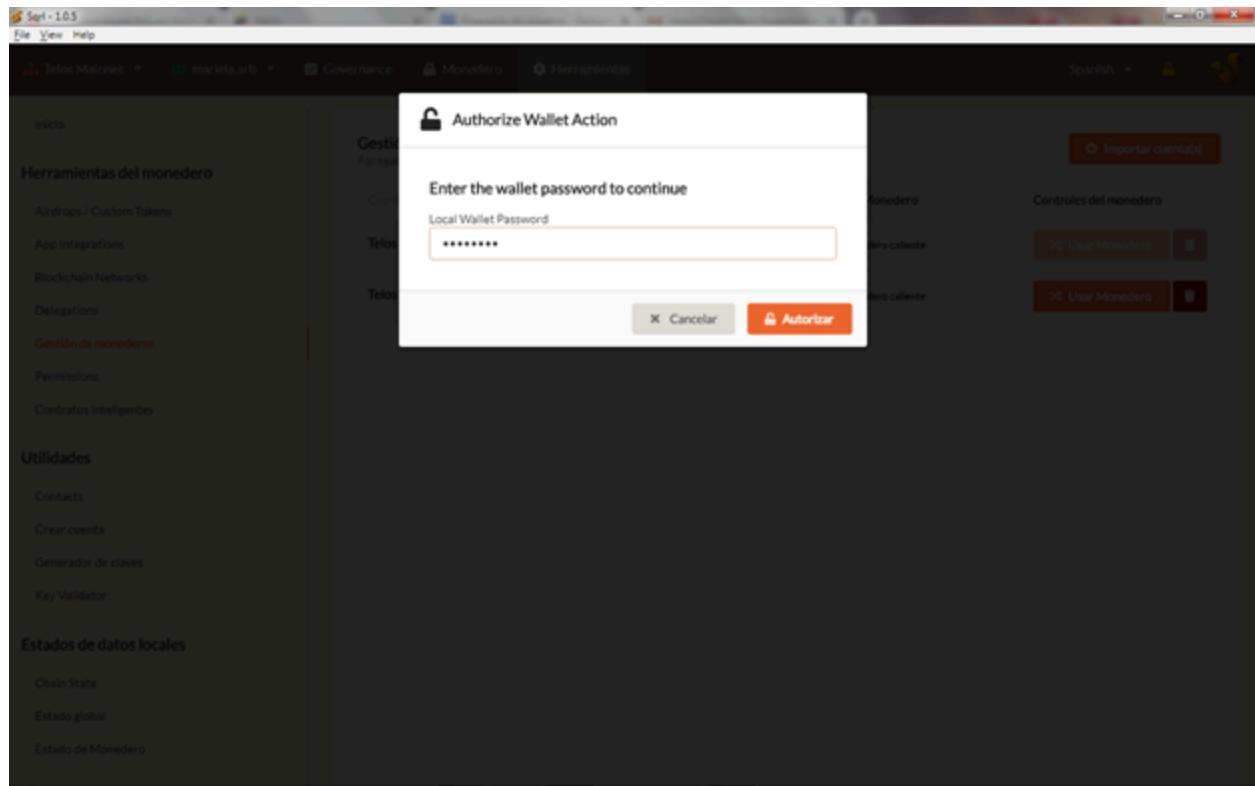

consolidation expansion steemchurch Telos

A dialog box appears that says Enter a Password that Authorizes the entry to the wallet.

Aparece un cuadro de diálogo que dice Introduzca una Clave que Autoriza la entrada a la billetera.

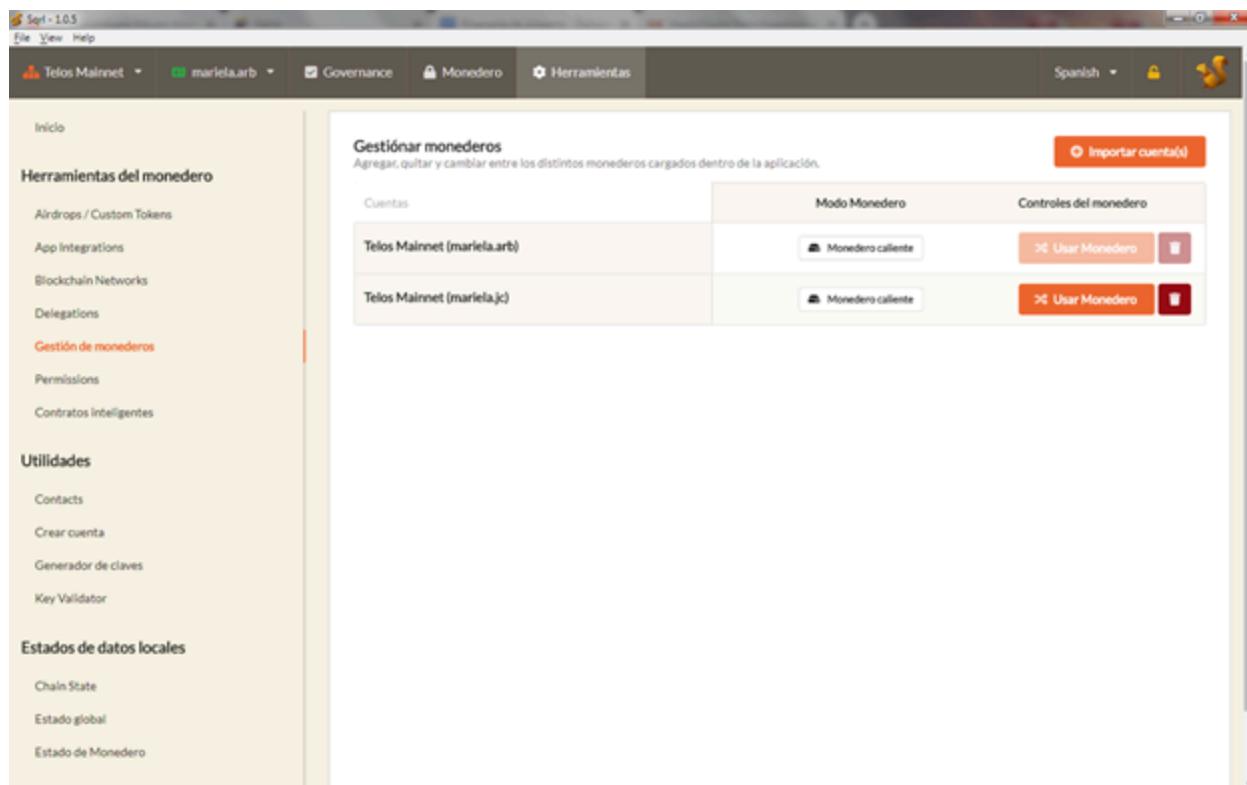

consolidation expansion steemchurch Telos

Entering the entry Password and clicking Authorize.

Ingresando Clave de entrada y hacer clic en Autorizar.

consolidation expansion steemchurch Telos

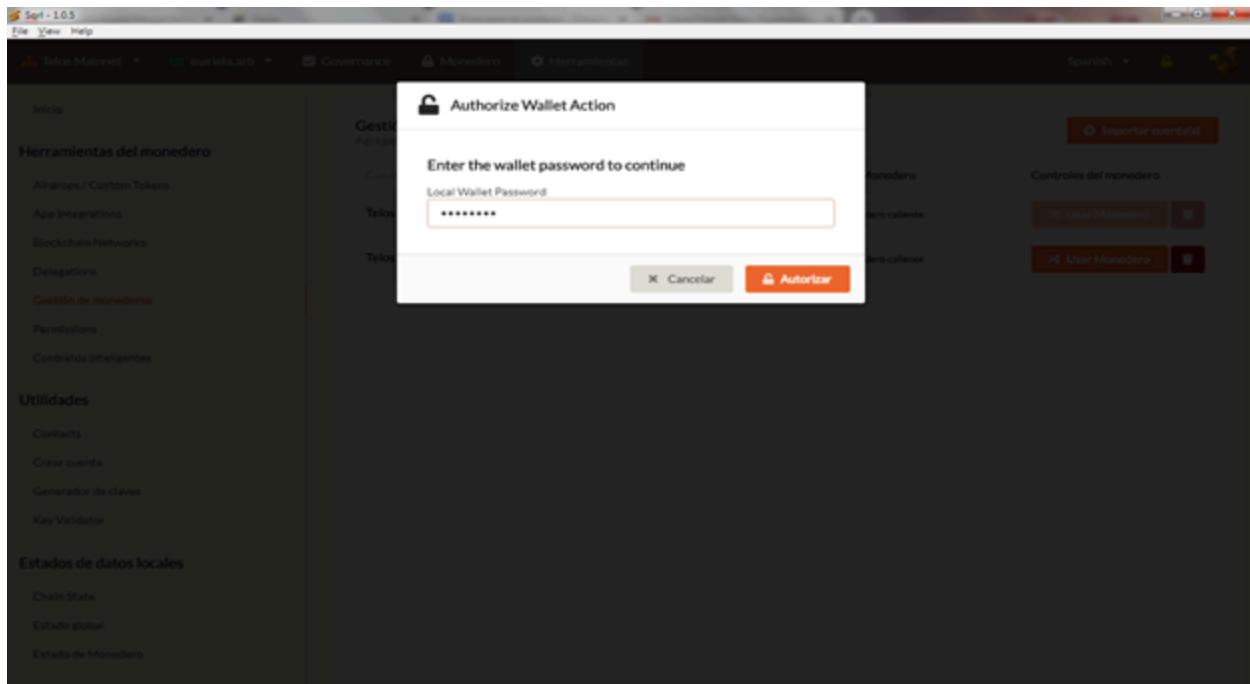

Now, in this box you can see that two accounts will appear the first with the extension .arb and the second with the extension .jc

Select one and click on Use Wallet

Ahora, en este cuadro puede ver que aparecerán dos cuentas la primera con la extensión .arb y la segunda con la extensión .jc

Seleccione una y hago click en Usar Monedero

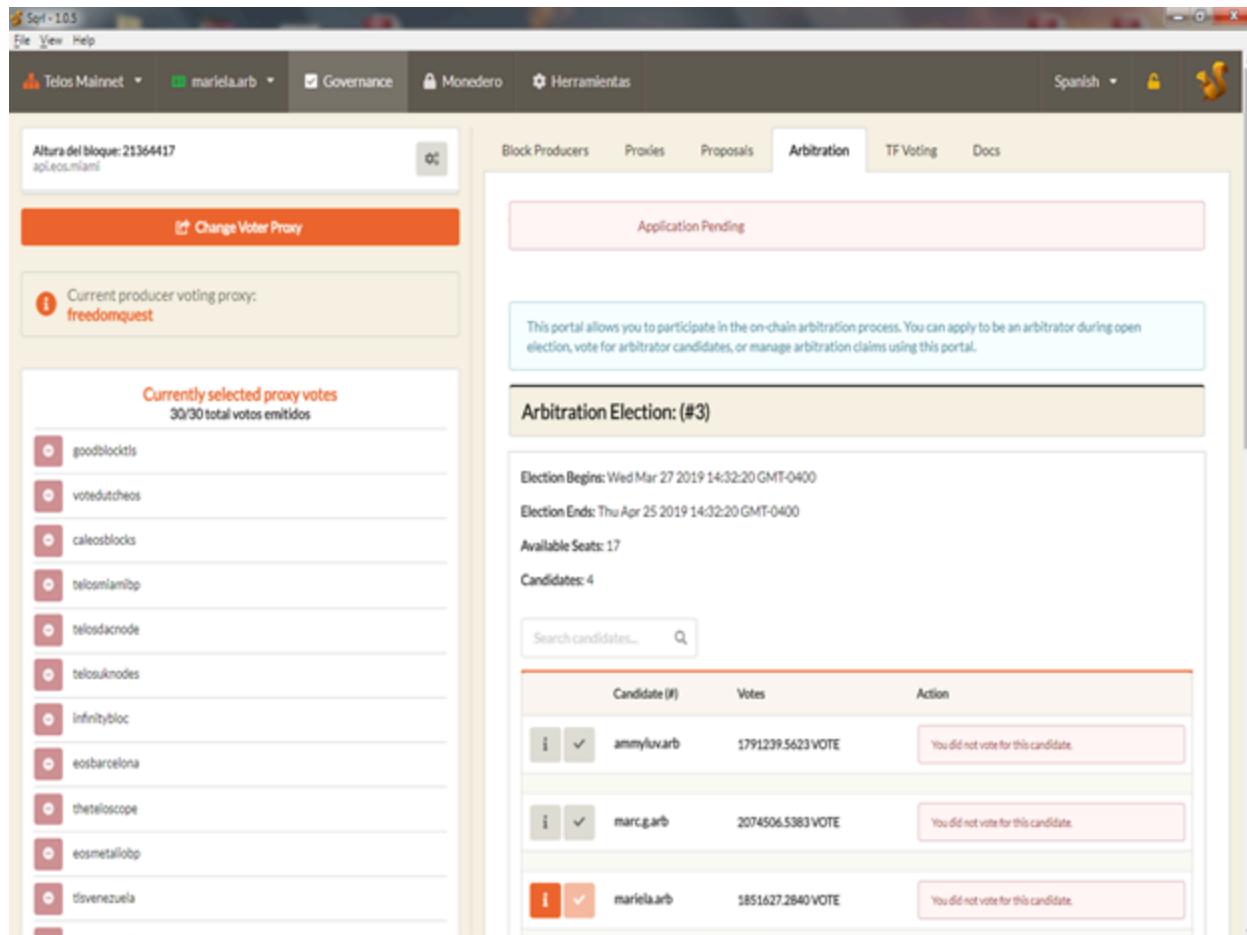

consolidation expansion steemchurch Telos

Introducing the Wallet key and clicking Authorize

Introduciendo Clave Wallet y hacer click en Autorizar

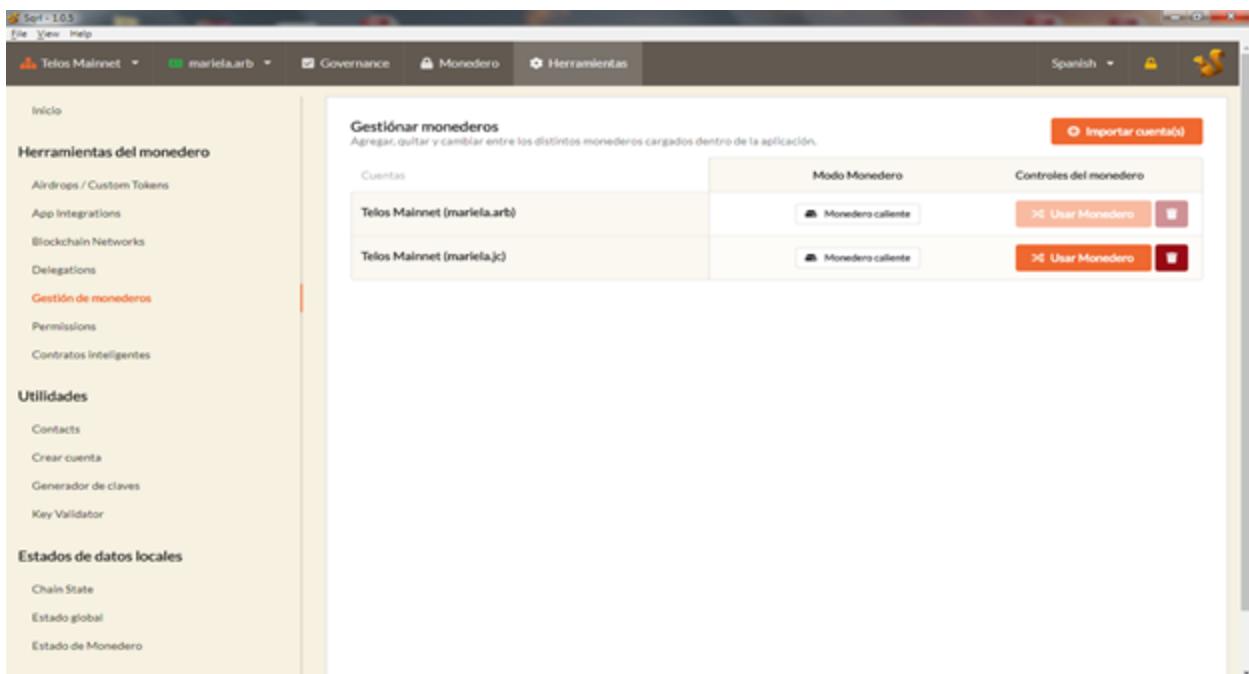

consolidation expansion steemchurch Telos

Finally you can see the information in your purse

Finalmente podrá observar la información de su monedero

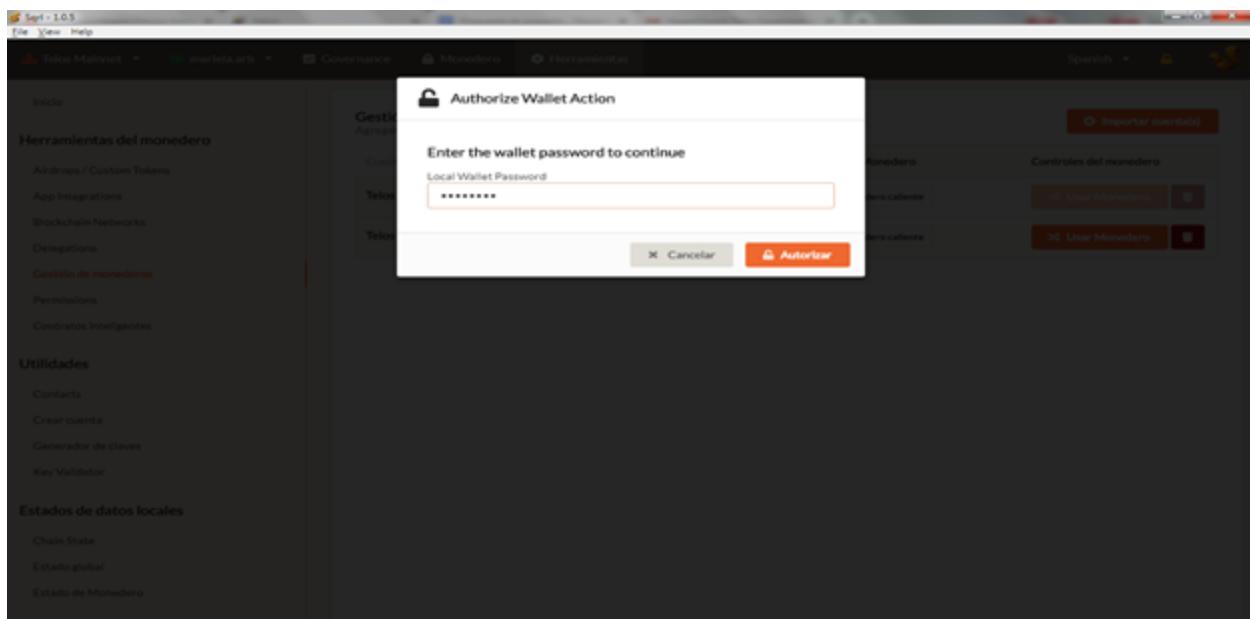

consolidation expansion steemchurch Telos

If you need to take a look at your wallet with the .jc extension, select the .jc account and Select Use Wallet.

Si necesita echar un vistazo a su monedero con la extensión .jc selecciona la cuenta .jc y Selecciona Usar Monedero.

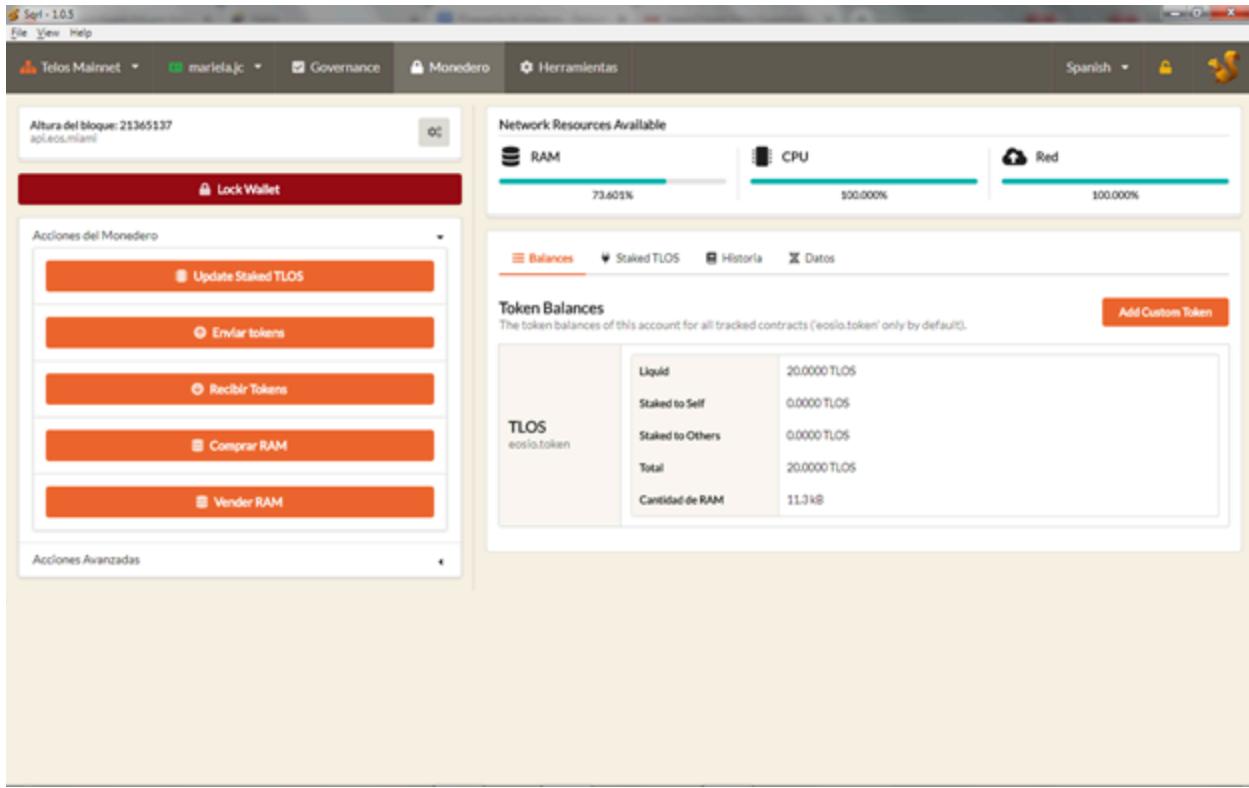

consolidation expansion steemchurch Telos

Enter Wallet Code and clic on Authorize

Introducir Clave de Monedero y hacer clic en Autorizar

consolidation expansion steemchurch Telos

And finally you can see the information you want in your wallet; RAM, CPU, RED, TLOS.

Y finalmente podrás ver la información que deseas en tu monedero; RAM, CPU, RED, TLOS.
