Re: Report to the Board

Date: Thursday, December 1, 2022

As the semester progresses, fall sports seasons are winding down and winter sports are up and running.

Sr. High Football is currently undefeated with three playoff wins and a semifinals game against Harding Academy this Friday. As football season comes to an end in the next couple of weeks, I think it's important to point out how great the new turf looks from the stands, and how it feels for those working out on it every day. I have walked on many playing surfaces this year and several of them are brand new. All-Care Field is, absolutely, second to none.

All four basketball teams are off to solid starts to their seasons.

Swimming and Diving season is underway and wrestling practice will start soon.
