Business Structure / Development Process

An overview of how we will conduct our business, including time estimates, roles, and project management.

Initial Contact

Time Estimate (2 weeks - 1 month)
(X MEETINGS TOTAL)

Sales & Project Processing:

Ask client to fill out application after they are interested

- This will be sent out by the sales representative working with client
- If application is received and is valid
 - Sales representative will hand it off to the website development supervisor to make the official decision on who will be a part of the project team and the point person (project manager) if the application is accepted.

Meeting: General Discovery

- Handled by project manager (will be for rest of project timeline)
- (Project manager) - Find a time for the client and development team meet to meet for first discovery meeting (can be virtual or physical)
- Creating the project in click up
