

Dear Elementary School Families:

We are receiving requests regarding student usernames and passwords for various online systems, including Q, Google, ConnectED, Moby Max, Pearson Realize, and Think Central. On the previously communicated website: <https://sites.google.com/learn.conejousd.net/cvusd-activities-library/home>, there are a number of activities and resources available to students that require student usernames and passwords to login.

To retrieve individual student usernames and passwords for Q Student Portal, Google Learn accounts, and Pearson Realize; please contact your site principal for the username and password.

The default usernames and passwords for ConnectED, Think Central, and Moby Max are as follows:

- ConnectED
 - The default username is cv and the student's ID#
 - The default password is cv and the student's ID#
 - So for example, if my student's ID# is 123456, the username and password would both be cv123456
- Think Central (Go Math)
 - The default username and password is the student's ID#
- Moby Max
 - The default username and password is the student's ID#

If you are unsure of your student's 6-digit CVUSD ID#, please contact your site principal for assistance.

Thank you for your patience and understanding as we continue to navigate through uncharted waters.

Sincerely,

Conejo Valley Unified School District's Instructional Services Team
