Computer Science

Through this program, Pathway students are able to earn certification within: Microsoft Office, Python, and JavaScript allowing them to join the workforce with the technical skills needed right out of High School.

Additionally, students will gain the skills needed to perform the following job functions:

- Developing new products or solving practical computing problems;
- Conducting research involving experimentation and modeling; and
- Working as part of a research team with programmers, IT professionals, and mechanical, electrical, or software engineers to solve problems and create new products.

The Software Development Program at Pioneer Technology Arts & Academy – Greenville MS/HS campus will allow students the opportunity to earn certifications that will prepare them for careers in Programming and Software Development as Software Developers, Computer Programmers, and more.

Students joining the workforce as a Software Developer and Systems Software can expect to see a 25%

Application Process:

Application due March 15, 2026
