Additional Notes [P.2]:

Brush 1 (Di):

Note: Duplicate the original “Brush 1” Brush first before proceeding.

1. On Brush Studio (settings), navigate to the “Grain” section. Select the “Grain Source” option box to open the Grain Editor. On the Grain Editor, select “Import” and navigate to the “Source Library” option. Choose the “Charcoal Vine” option.
2. (Optional) Feel free to rename the title of the brush of your choice in the “About this brush” section.

Medi Brush (Teirar):

Note: Duplicate the original “Medi” Brush first before proceeding.

1. On Brush Studio (Settings), navigate to the “Stroke Path” section, Adjust “Spacing” properties to 3% and “Jitter” to 35%.
2. Go to the “Shape” Section. Increase the “Count” setting to a value of 16 and enable the “Randomize” Setting.
3. Head to the “Rendering” section. Adjust the slider on “Flow” to 21% before proceeding to step 4.
4. On the “Dynamics” section, Adjust “Jitter” to 45%.
5. Go to the “Apple Pencil” pressure section. Decrease flow from the max setting to 26%.
6. Lastly, go to the “Properties” section. Adjust “Maximum Size” to 57%.
7. (Optional) Feel free to rename the title of the brush of your choice in the “About this brush” section.
