1. MAIN HEADINGS – FONT SIZE 12

Always put space between normal text and heading/subheading.

2. BOLD, UPPERCASE

2.1. Subheadings – Font size 12, Bold, Italic, Capitalize Each Word

2.1.1. Second subheadings – font size 12, Sentence case

1. INTRODUCTION

Paragraphs hanging is 0.75cm. Introduction section consists of background of the study, literature review used as the theoretical and conceptual description, problems of the study, and objectives of the study. Gap and Novelty. As well as research questions or hypotheses.

2. METHOD

This part contains the methods, data, source of data, data collecting technique, and data analysis technique.

They are written in a narration not a listing. The statistical symbols are written based on the standardized ones.

3. FINDINGS AND DISCUSSION

It covers the findings and discussions. It is expected that in the discussion, the author investigates his/her findings and refers back to the theoretical or empirical studies which are written systematically, critically, and informatively.

4. CONCLUSION

Some points The article should be between 3000-7000 words in two columns, 1 spaced, 12 point Times New Roman font, including references and appendices. Use no indent for the first paragraphs and do not leave a space between paragraphs.

Table 1. If your table is wider, make it in one columns, centered, TNR, 10pt,

No	Aa	Bb	Cc	Dd
1	Abc	1	XI	Xx
2	Abc	3	X,XI, XII	Xx
3	Abc	1	XII	Xx
4	Abc	2	XI, XII	Xx

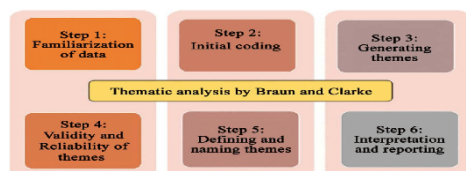

Figure 1. Centere TNR 10pt, italic

Thematic analysis will be applied to all the data collected. Thematic analysis is used to find patterns in qualitative data, which allows for a better understanding of the phenomenon being studied (Braun and Clarke, 2006, p. 79). The results
