clears oil and prevents breakouts

Foaming cleanser helps clear skin and reduce visible skin ageing. Salicylic Acid and Lactic Acid, Beta Hydroxy Acids (BHAs), stimulate natural exfoliation to help clear clogged follicles and smooth away dullness that contributes to visible skin ageing. Menthol and Camphor help cool the skin. Contains extracts of Balm Mint, Eucalyptus and Tea Tree. Skin is left clean and prepped for optimal absorption of Active Clearing treatment ingredients.

benefits

- Clears away excess oil without stripping skin
- Helps prevent future breakouts
- Soothing botanicals help calm irritation

Modelling

For oily, acne prone skin, sensitive skin

This light weight formulation contains

**Ceramide technology providing moisture to
replenish the skin barrier.**

This gentle, blemish-fighting cleanser removes excess oil, pore-clogging debris and makeup without drying skin or causing redness.

our new Acne Control Cleanser with 2% [salicylic acid](#) is formulated to clear acne, reduce blackheads and improve the appearance of pores, while purifying clay helps absorb excess oil. Featuring Oil-Absorbing Technology to minimize visible shine, this refreshing, gel-to-foam salicylic acid cleanser effectively removes dirt and excess oil, gently exfoliates and penetrates clogged pores to help prevent new acne breakouts.

reduces acne while leaving the skin soft, smooth and hydrated.

[Acne](#) can affect teenagers and adults alike, and an effective acne cleanser is an essential step in any anti-acne skincare regimen.

Our Acne Control Cleanser with 2% salicylic acid is formulated to clear acne, reduce blackheads and improve the appearance of pores, while purifying clay helps absorb excess oil.
