

## Fnaf 1

- Title would be “Five Nights at Freddy’s 1 Remaster” and maybe add”: Can you Survive The Night?” to it, maybe
- The menu music would be a remix of the FnaF 1 song mixed with the FnaF 1 menu music
- Add 1993 to the check
- Change Bonnie texture to what color he really is

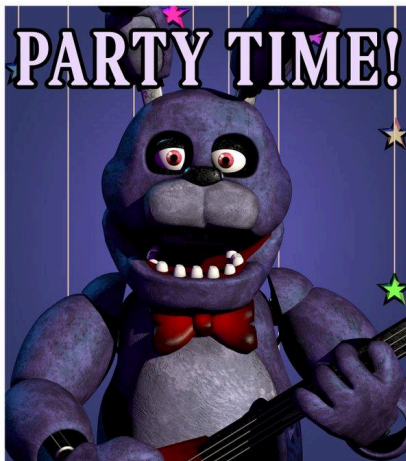

(Made by Croco\_Art\_ on twitter, but the blue is a little bit darker. Since this would be what bonnie looked like in 83 to 85, I'll explained later in a different section)

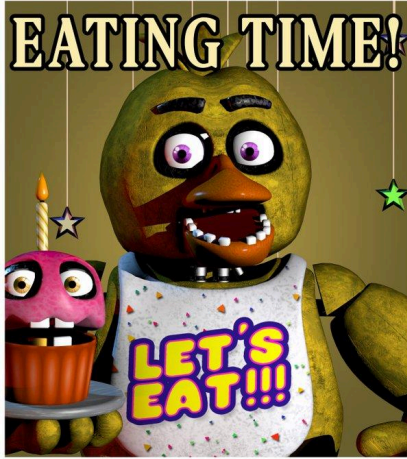

- Add a extras (and a shop, which in turn can get things like skins, can also listen to various FnaF 1 music during the shop and can change the music to any FnaF 1 songs)
- Show the Animatronics moving ish in camera
- Animatronics having voice lines..kinda, mainly when they get to the office and say either “it’s me” or they say a line that basically implies they think you are danger
- Remake Foxy dum dum song maybe

-replace the stage seen in fnaf 1 gameplay with the trailer/celebrate stage (like this, made by VioletTheEepy on twitter btw)

-Remake the time posters, like these for example

from @jp\_dapesada, Models By @FiveNightsPack, Lights By @FazbearRenders, like these but Foxy would be fixed and bonnie color is different)  
-Rare screens (like these for example)

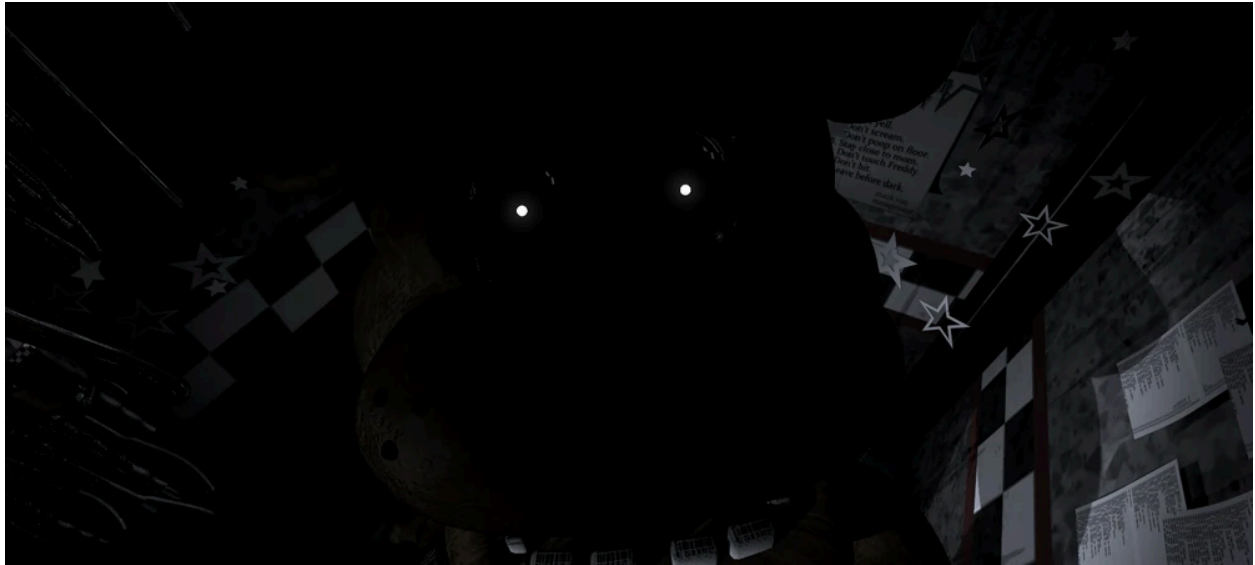

(Made by melloman12 on reddit)

- Missing Posters so Show us what the mci kids look like (and end the debate for Cassidy gender, which would be girl. And in turn possible ending the toyshnk debate too maybe)
- Minigames showing how all 6- I mean 5 were lured (and at the end, shows them about to be stuffed)
- The backstage cam is moved to be behind the stage cam
- New gameplay changes, for example. Bonnie/Chica would be at the Pirates cover area/camera, there's certain moments where you can get out of the office to do tasks (like

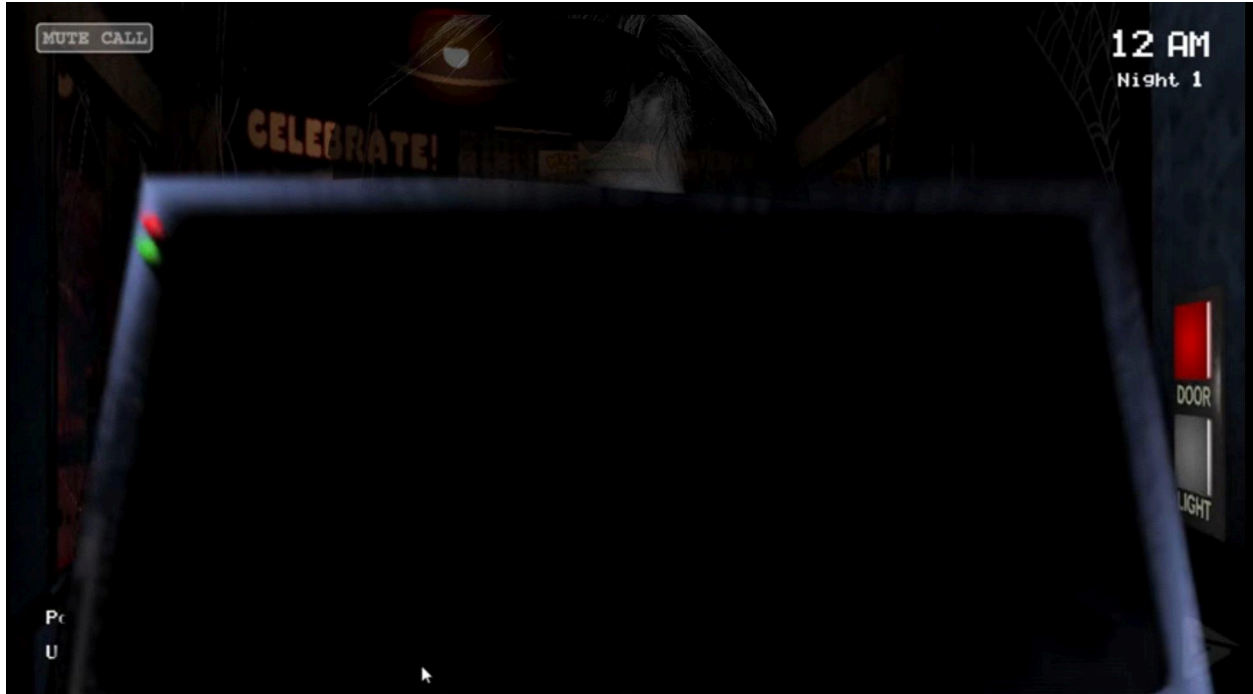

replacing the light bulb in the men's restroom for example), freddy does the same mind swap that he does in the week before only if you stare at him too long on the E.Hall Corner cam

- the death screen would sorta be how Real time did it, except for Golden Freddy.... Kinda
- A lot is going to be based on or is from "The Week Before" Book
- There will be a section after the nights that are basically just the sl tv segments, but instead it is the "Fredbear and friends show" that mike is rewatching. Had from the 80s, these clips would relate to the story. In some way
- (idea from Oblitus #1 Tangle Blob Fan) c.c would appear in corners or cameras like the vengeful spirit in UCN, but it would make constant crying noises. Like these for example (Made by Oblitus #1 Tangle Blob Fan)

- Have night 5 be like the special gf kinda like thing (mainly because of garrett)
- After completing Night 7, you get to explore the Pizzeria (inspired By Fnaf rewritten, the overhaul version). The building will be based on twb/itp (like based on this, made by

ImTheCreator2 on reddit)

-We see a lot of things that we didn't see on camera, itpgame will be used. Example (imagine this but Scott styled)

**OBJECTIVE**

MEET CHIP AND MIKE IN THE ARCADE

-Shows menus and posters we don't see on camera and things we didn't see on camera too, like the menu

Foxy's Famed Dirt Pie - What better thing for a pirate to eat for dessert than the dirt and grub he scoops up once he reaches land? NOTE: ^ does not actually contain dirt or worms, do not file a lawsuit", something like this)

-When you head to the prize corner, you'd see the music box from 2 being closed. Along with the plushies of the faz crew (freddy to foxy) on the shelves (basically hw, but in the fnaf 1 scott style)

-And the outside of the location (looking like Chuck e Cheese, probably know which one, as for the sign,it would be the Fnaf movie sign but tiny bit different, something like these for example

Made byFireFoop, Like this but in the F&FT (Freddy

and Friends tour) style  
the building be look like this

But the windows and shit will be more like

how twb describes itm

Skins in the shop you can get if you get enough faz points (inspired by fnaf 2 chaotic grand reopening, only for custom night only), only two of them would be canon, this

(Render made by NOONELMAO, thank you for making the

render for me)

Jack o'lantern styled Freddy to Golden Freddy

Purple bonnie

Clean versions of them (this is also canon as 83 to 85 versions of them, sorta like how the movie did them, which btw. The classics would look a bit dirty, basically these but Bonnie isn't purple in the base game. Made by Croco\_Art\_ on twitter)

And gf (ignore the withered, this is part of their Retrofitted timeline)

A skin for Freddy to Golden Freddy that is a minute between their classic and withered (sorta like the nightmare animatronics)

Fnaf movie skins of them

-you would also get (inspired by fnaf 2 chaotic grand reopening, a lot of these are for custom night only)

Hard mode

Minigames (to play when you want to)

Bonnie Plush

Chica Plush

Foxy Plush

Golden Freddy Plush

-If you enter the number "2023" in the custom night section, you get a night 8th with springtrap and the phantoms (along with some fnaf 3 mechanics added in it). Inspired by fnaf deluxe

- If you enter the number "1983", you get a night 9th where the puppet is now active. Music box mechanic is added and the prize corner is now a available cam for the puppet. We would also see a newspaper on charlie emily death, outside of "Fredbear's Family Diner" (and Henry emily is mentioned)
