

Jennifer

«I know you have another»

She nodded her head and said,

«That's right, how come you know?

You weren't home last night»

I noticed in the car, I noticed in our house

Traces all around me,

I wanted you to tell me

Why didn't you tell me darling, I could leave.

If you think that you are

really sure about this thing»

She said: it's not your problem

She nodded her head, said:

a fellow came by with a letter

to you, I guess from her

She writes about the stars

she writes bout you and me

How you're hiding all around me,

I wanted you to tell me

«Why didn't you tell me darling, I could leave. If you think that you are really sure about this thing»

Oh darling won't you leave me

I'm sure we'll be alright

I'm sure it's for the better

and that you'll sleep all night

darlin, tell me tell me darling, and I won't tell a soul

I won't tell a soul if this is solid - if it's really love for you

And I will find another, and you will stay with her

And we'd all live together

It's alright, Jennifer

I will find another

Easily as that

If you think this is love

It's alright, Jennifer
