P2 **Electroshocker**
Placement

Electros won't be removed due to a bug after the meteor is striked.
Pls place it near the yellow as close as possible

P3 **DJ** placement

Place ranger near the **DJ** so that **DJ** gets the range boost

Reasons for losing

- Left side has flying angel or mobs with nimble that was leaked which P1 should have placed Minigunner at the left.
- P2 did not chain commander properly.
- P3 DJ did not switch to **Red** track at wave 29 or 40.

RIP to last year's [Winter Haste](#) Strat, see u next year
