

SL: sell a programme to everyone who comes to your site or website.
What if you kept the attention of all the people on your site or
You could attract all the people on your site to one of your programs

Hi name,

I found your workout page through your tik tok account and..

Your 3 workout programs from beginner to advanced are a good way to make your client
renewing after they progressed.

I have noticed that your page does not hold the attention of the customers who arrive on it
and makes some of them leave.

You could make more sales if you kept their attention and guided them to the right program
for them, using the right method.

So I wrote the beginning of your page that will keep the attention of all the people who want
to develop a strong and bulky body.

It is only a piece, which you can use right now, of what could increase your sales.

If you want to know more, a simple answer is enough for me and we'll talk later.

Best regards,

Matis.
