

The Dragon Battle: A Note-Catcher

The great “dragon battle” is also known as the “brother battle.” Why? The hero’s greatest nemesis often displays traits that the hero also possesses. In that way, they are like brothers. After all, when we despise a trait in someone else, isn’t it often because we are ashamed of that trait in ourselves?

However, the hero and the “dragon” must also be different in some fundamental way. Typically, the hero is able to make a choice that the nemesis fails to make, and/or the hero finds an inner quality that the nemesis severely lacks.
