Privacy Policy for Alaine#6310

What data does Alaine collect and use?

Alaine collects information from your Discord user profile in order to run properly! The data includes, but is not limited to:

- ➢ - Username
- ➢ - User Profile (Badges, Profile Picture, Ect.)
- ➢ - Reading your messages
- ➢ - Your online Discord status
- ➢ - Servers you are in
- ➢ - Members (Their roles, nicknames, when they joined, ect)
- ➢ - Server information (Member count, role count, ect)

Why and How does Alaine use this data?

All these are used to help Alaine run properly when certain commands are used. If Alaine could not collect this data, she would not be able to run commands like profile or server-info correctly. The data provides Alaine with the information the command needs to show accurate information and results. All data collected is never shared and will always stay between the user and the application (Alaine#6310).
