

Timing Companies - Ontario

Updated: January 15th, 2019

The list provided below is not an endorsement of these companies. It is a collection of readily available information from the internet.

Company	About	Contact
https://runninggoattiming.com/	Running Goat Timing and Event Services is a full service race management company with a specialty in timing multiple distance road races of less than 5,000 participants. Our primary market focus is on helping smaller races grow to substantial numbers by offering a cost competitive, precise and reliable timing option. We will always go the extra kilometer to make your race a success. We use the Jaguar 4.0 Chip Technology from <u>Innovative Timing Services</u> (ITS), a world leader in RFID technology . The advanced design of the timing system provides superior read rates, system reliability, real-time results, and it doesn't use dangerous mats or ramps that might cause injury to athletes. In addition,	craig@runninggoattiming.com

	there are a variety of disposable and reusable chips that will meet your unique race needs. Today, ITS is the technology leader in RFID systems and has more patents pending than any other timing company. These efforts have allowed them to set records when it comes to read density and accuracy. Running Goat Timing are the timers for the Annual Perth Kilt Run that now has over 2,000 runners.	
https://chiptimeresults.com/	Chiptime Results is equipped to time various activities such as (but not limited to); Road Races, Triathlons, Trail Races, Stair Climbs, Cross Country, Cycling, Open Water Swims, Obstacle Courses and even a Soap Box Derby!	https://chiptimeresults.com/contact-us/

https://www.speedrivertiming.com/	Speed River Timing is an established timing company affiliated with the exciting running scene in Guelph Ontario. With 5 years of experience with the <u>Ipico</u> sports timing system and over 500 races timed, we are happy to offer our services to the running community. We are able to offer start and finish times, an announcer mat, live results within minutes of runners crossing the line, results display at the finish line. The Ipico Sports system is in use all over the world and in many of the world's best marathons. We have used our system at all of the Guelph Race Series races, the Canadian National XC Championships, the Marden marathon, Parry Sound Biospere run, the Hamilton Downhill Running Series and all of the VRPro series in Burlington.
