**Programme:** Bachelor of Design (Honours) in Creative Media

Date	Items – Tasks to Do	Progress Remarks / Action/ Reflection	Student's Signature	Lecturer's Remarks
<b>Week 1</b>	<p>Please create a folder and add previous Design Research Methodology work under the RES sub-folder. Grant my email (chuiyinwong@gmail.com) as Editor mode. I will give comments when needed.</p> <p>Please refer to learning material, including the Thesis Template and Cover Page that Dr Hayati has uploaded at Team.</p>	<p>-research questions come first then research objective -title must not be bias such as mentioning Lazada or Shopee -the first research question cannot be the “what is the challenge” it should start with something basic such as general experience</p>		
<b>Week 2</b>	<p>Introduction Research Statement, Problem, Objective Questions</p>	<p>- Don't start with "unfortunately"; - "However", "not only that", "in addition"; - Don't use "this paper", but "this study", "this research"; - You didn't finish revising last week, and there are still some unrevised. Please continue to revise, you can add some pictures, then you know what game sound effects are, and you can't mention names, there are some names.</p>		
<b>Week 3</b>	<p>Literature Review</p>	<p>- abstract can only have 1 paragraph</p>		

<b>Week 4</b>	Refine, Literature Review,	-The order of the framework diagram is wrong. The arrows need to be improved. Your topic needs to be revised because the content is inconsistent. The abstract also needs to be revised. -Literature review, find the keywords from the title and then go deeper -Text in the reference list needs to be italicized		
<b>Week 5</b>	Research Methodology Research Conceptual Framework Analysis & Discussion Conclusion Project Recommendation & Future Research	- There is no need to add the word "chart" to "Research Conceptual Framework Diagram". - For survey results, do not use screenshots of charts from the survey form, use charts with percentages and n (number of people) and add tables next to them. - Add question sections and participant background in the summary. - Measurements can be used in conjunction with survey instruments.		
<b>Week 6</b>	Research Methodology Research Conceptual Framework Analysis & Discussion Conclusion Project Recommendation & Future Research	-In the research objectives section, change the information architecture to navigation -No need to add a table to the bar chart -In the measurement section, fill in the measurement methods used and provide some examples		
<b>Week 7</b>	Literature Review Findings Project Recommendation & Future Research	-Analysis and discussion must answer the research objectives -Add limitations in the conclusion section -References can be made from others		
<b>Week 8</b>	Self- learning week Moodboard	No feedback session		

<b>Week 9</b>	Art direction Key visuals Table of content	The title should be separated into three lines. The author's name should not be italic text. The body text size can be increased so it's easier to read.		
<b>Week 10</b>	Complete Book design	No feedback session due to holiday		
<b>Week 11</b>	Finalize book design Convert to PDF and	The font spacing is incorrect. Refer to APA format		
<b>Week 12</b>	Brief of task 4 Finalize and submit visual design book	The font is well chosen, soothing and easy to read. The author's name on the cover should be more eye-catching and is too close to the margin. Information behind the cover: No need to fill in the submission date and No need to fill in the semester Sort out the alignment of the table of contents. Some layouts are inconsistent, please improve them. Split long paragraphs into two paragraphs Change the image table.		
<b>Week 13</b>	Finish KREATE abstract, introduction, problem statement, methodology, findings, conclusion, references	need to have intext citation for KREATE Author and email need to include Ms Wong details		
<b>Week 14</b>	Amend KREATE Add graph	It should include your method content, purpose and results Don't include some unused methods Sometimes a summary is enough
