I have been working in the Automotive industry since 2018 but I have prior years working on my own vehicles. While I primarily have experience with JDM model cars (Honda, Toyota, Hyundai etc.), I do have knowledge across most domestic and import vehicles. Currently I work full-time as a Technician in a dealership, so my availability is limited. I'm very open about my inspections and treat each car with the same integrity I do as I would in the shop.

Services offered, prices to vary based on year, make and model of the vehicle.

****SELECT EUROPEAN MODELS (BMW, VW, MERCEDES, AUDI ETC.) ARE ACCEPTED FOR SERVICE (MINOR MAINTENANCE ONLY AT THIS TIME) .***
All other vehicles will be accepted on a case by case basis.

*****All base service prices are based on LABOR ONLY. If you do not provide parts needed to make repairs, a part quote will be given before scheduling a service time.***

******Each service comes with a satisfaction guarantee. If any problems were to occur FROM THE SERVICE THAT WAS PERFORMED, a full refund will be issued if I can not resolve the problem without further repair.***

Services provided:

General Inspection-----*Starts at \$15:* Check operation of all exterior lights, engine/cabin air filter inspection, tire tread inspection, visual inspection of brakes (offered free with Oil change service, decline of inspection during oil change does not discount)

Oil Change----- *Starts at \$25:* Includes oil change service, general inspection with repair suggestions. \$5 added charge for paper style filters.

Tire Rotation----- *Starts at \$20:* Brake inspection included. Add with Oil Change service for \$5 off.
