**HOUSE HISTORY** Nukumori House originates from Japan. It consists of a group of people that understand that kindness is the true strength that will build their character. Members are known for the friendship that they extend to everyone around them. They treat others with respect and in doing so they earn the respect of all others. They take inspiration from the cherry blossom because it reminds them that kindness must be grown and cared for like a flower until it blossoms into the most beautiful flower in the whole garden.

Kindness does not mean meekness or timidity. It means stepping in and defending others, taking care of them, and seeking what is best for others as well as ourselves. This is why the dragon is Nukumori's symbolic animal - Filled with ancient power and wisdom, it is fierce when the time calls.
