Welcome to SBB Squares Living Rules & FAQ!

## WHAT ARE SBB FOOTBALL SQUARES GAMES?

The rules for football squares games are explained HERE. You will not pick squares to put your initials in (bc obviously this is the internet), instead the spots will be drawn randomly. The numbers along the top and sides will also be drawn randomly.

## WHAT ARE SBB SPOT SQUARES GAMES?

Similar to football squares, we use a 10 by 10 grid (100 entries total) where the numbers across the top correspond to the tenths place of the spot price of silver and the numbers across the side correspond to the hundredths place. All spots on the board will be drawn randomly, all numbers on the top and sides will also be drawn randomly.

The **Spot Price** (as determined by the Bid Price [here](#)) of 1 ounce troy of silver at the **Execution Time** listed in the **Launch Post** will determine the winner. In the example below, had the spot price of silver at the Execution Time been 69.69 (or 1.69, or 420.69 –all that matters is what's right of decimal place), then the winner in the example below would have been u/ChickenDinner!

		TENTHS (xx.Tx)		
		1	8	6
HUNDRETHS (xx.xH)	7	u/Cuck4lyfe	u/wannabe	u/NoShot
	3	u/DOA	u/BooHoo	u/Stinker
	9	u/FakeName	u/2	u/ChickenDinner

## **ENTRY FEES**

**Entry Fee** amount may/will vary by contest. It will be listed clearly in the **Announcement Post** and **Launch Post**. Entries will be restricted to .999 fine silver in increments of troy ounces. (Think generic rounds or bars). If you want to send off-weight stuff or gram denominations please clear it with the host. Cash entries may be available and will be communicated in announcement and launch posts.

## **HOW TO ENTER**

Comment on launch post and send the host a comment to arrange payment!

## **QUESTIONS & ANSWERS**

**Q:** Who the hell is u/CPlayto?

**A:** I am an active member and mod on r/SilverBugBets - the subreddit through which these games are being run. I'm not a dealer so I don't buy/sell a ton of silver on r/PMSforsale, but I am active there. I have dealt and gambled with several mods and dozens of users in the reddit community for the past 6 years.

**Q:** Are you going to make that players with multiple entries don't have entries that share a row or column?

**A:** If you have 3 or fewer entries and request that you have no entries in the same row or column I will try my best to make sure you don't, but I am not making any guarantees.
