

Note:

- This is a first draft page and changes can be made according to your need.
- This is made on a Google Doc Document so it can be easy to send, things like Background style and 'Purchase' buttons were not accessible
- I put less photos and videos as they use up a lot of space on your website
- I used things like 'Prices doubling soon' to increase the urgency factor
- I reduced the number of discount applicants from 500 to 50 so it seems more real for a 1 hour timer
- Things like 'The truth about Trading' and 'the simple Hack' were used to amplify curiosity in the reader's mind to persuade them to buy
- If you can send me details I can work on further improving this design.

TESTIMONIALS:

Let's Talk About Our Student George

George had started out just like you and recently had his first \$500 trading day

George was just like everyone else, a complete beginner with not even the slightest clue on how to trade. he wanted to try out trading but faced a lot of challenges in his way

He was consistently losing money on trades. He tried learning new strategies from Youtube and other platforms. He gained some knowledge on candlestick patterns, how to spot structure levels and more.

But, this knowledge wasn't enough as George still watched money being drained from his account. Eventually George came across the TTC Forex University. At first he was hesitant to join, but he was assured that he would get a 100% refund for 30 days so, he joined

After joining George learned 8 different strategies taught in the university which gave him the full recipe for trading success, George put the MCR strategy into action and made \$500 profit in a day!

⬇️ Here is the proof ⬇️

Steven is an incredibly knowledgeable, thorough, and easy to understand teacher/mentor. I can't say enough good things about him and the course and everything else the program offers. I speak from experience having had a couple not so good mentors in the last year or so that just leave you confused and guessing. Joining the EAP program has been the best thing I have done for my trading and the path to CONSISTENT profitability is very near for me. Only regret is not joining sooner. If you having trouble in your trading or just starting on your journey you will not regret joining. Don't put it off if you can. Thank you Steven and everyone involved

@Kobus Erasmus I don't know who to get advice from, because in my state people don't understand well, there are a lot of fraudulent teachers, I want to study this field very hard.

@HmN_ sorry but I won't be able to. Steven is definitely not a fraudulent teacher. He is the real deal. Plus you get email support from him when you buy his course, so you will be in very good hands.

I have completed most of the forex university and I recommend it. I am looking forward for the new content.

Bill Bortcosh • 9 months ago

I enrolled in the EAP program, and Steven and his team were excellent. I learned both fundamental and advanced concepts, but more importantly the teaching on the emotional aspects of trading and risk management were crucial. I have started being a profitable trader already and am continuing to learn and adapt my own trading styles thanks to the foundation from the EAP program. I know it's a little expensive, but I would strongly recommend it for anyone who wants to really strengthen their trading fundamentals and develop consistent strategies.

Garry De Gruchy • 5 months ago

Thank you Steven for your honest history of how you came to be where you are now.

I felt your pain when you were describing your experiences.

I have joined your EAP course and found it to be an invaluable tool on my path to becoming a trader.

You definitely have the knack of communicating your trading experience and it shows that you have a passion for helping as many other new traders as you possible can.

I'm sure, the community is grateful for all of your efforts.

Keep up the good work and thank you.
