

All the Trimmings Shop

We are committed to providing you with the highest quality in custom soft furnishings and draperies and want to guarantee you a beautiful outcome! In order to do so we prefer to order your fabric because...

1. We know *what type* of fabrics are appropriate for specific end uses. Fabrics for draperies will not stand up abrasion like upholstery fabrics will.
2. We understand the characteristics of different fiber content. Some fabrics have a tendency to shrink/grow, some flare, etc.
3. When we order fabric we know how much yardage to order to allow for the vertical and horizontal repeats of a pattern, etc.
4. We assume the risk by ordering for you, and inspect it carefully before we make the first cut, ensuring the end product is the very best for your money. Should there be a problem we handle it with the fabric vendor.

We have partnered with the following vendors to provide a large selection of the highest quality textiles because we know high quality home decor fabric is so essential to beautiful soft furnishings. We have 100s of their samples available for you to see & touch in our workroom.

You can also click on a vendor name to go to their website. We can order a memo for you too.
