

## Notifications and Alerts

Elkins School District uses ParentSquare to send out alert information regarding school activities and events and weather closings. Alert messages are shared via text message, email, and app notifications. Information is also shared on the district website, <https://www.elkinsdistrict.org/> or push notifications through the district app.

Classroom teachers use the ParentSquare app to communicate with families. Parents are automatically added to their student(s) classes, and will receive a 6 pm daily digest.

Parents and guardians are contacted using the students' registration information, and we want to make sure we reach everyone. **If you are not receiving notifications, please call your school office to double-check your contact information.**

## Social Media

There are many ways to find out information about things happening at each school and our district. The best, most accurate information, as well as the latest pictures of events or activities, can be found on the following social media platforms. If you cannot find the information that you are looking for on these platforms, it is best practice to call the school office for the most accurate information you may need:

**Primary School** - 479-643-3380

**Elementary School** - 479-643-3382

**Middle School** - 479-643-2552

**High School** - 479-643-3381
