Ideas for the EFA gathering 2024, wishes, needs, topics, activities...

Ideas and contributions are welcome here, as well as at the beginning of the gathering. Our theme might inspire you for what to offer or ask for.

The Gathering Theme

Surfing the Waves of Life: Sensing and Thinking Freshly

Add your idea here

- Reading and sharing about Gendlin's last chapter in his book
 "Focusing" thirteen "Experiences beyond roles" this chapter fits very well with our theme. (Amona)
- I could offer a practical session of person-centered and body-oriented constellation work based on Peter F. Schmid/Rogers (with a physical intro and 1-2 constellations followed by a sharing round, 2.5-4 h). (Juliane von Crailsheim)
- A research (verbal or physical) could follow: What if we combine constellation work with focusing sessions? (Juliane von Crailsheim)

- I could give a seminar or a demonstration about working with strong emotional blockades or pain treatment (Combination of focusing and Eye movement (Who suggests this?)
- I could give a briefing about the new research questionnaire "Focusing Skills Inventory" (FSI) and could discuss implications for teaching everyday Focusing attitudes/Felt Sense Literacy (1/2 h). https://doi.org/10.1080/14779757.2024.2373155 (Danny)
- I'm asking for support in order to experiment with an exercise called "Making a bouquet" which I learnt from Satoko Tokumaru. Interested or curious? Please bring color pencils or color felt pens or whatever you like to use for drawing plus white paper. (Rosella Salari)
- Dance Party (Amona) bring your favorite music
- Fire and singing (Amona) bring your songs with cords and your instrument
- Always in for a stroll into nature, be quiet and connect with earth and bird (Eveline)
- I would like to offer another group meeting using felt sense dialogue around challenging collective issues such as geopolitics or climate change (Peter Afford)
- Mich beschäftigen seit einigen Jahren Fragen wie: Wie stelle ich mir "Aktualisierungstendenz" (Rogers) irgendwie im Detail vor? Und in Verbindung damit: Gibt da Gendlins "Fortsetzungsordnung" ein wenig (oder vielleicht auch eher mehr...) einen Teil einer Antwort? Wenn jemand Lust hat, da ein wenig auszutauschen und rumzuforschen....
 (Thomas)
- I'd like to offer a gathering to look in a Focusing way at aging- our feelings about aging, and using Focusing to access what is wanting to come for each of us regarding how we live and would like to live our lives. (Ruth)

- I could offer a discussion round on "Focusing-oriented Coaching".

 Sharing experience and meeting people who are interested in this topic. (Dietmar; only Friday would be possible for me)
- I would like to show you a variation of focusing that I use regularly in my training and which I find quite eye-opening: the person focusing knows the content of what they want to talk about, but I, as the listener, do not.(Christiane)
- I would like to continue the interest group 'environmentally orientated experiencing'. This is not about discussing climate problems, but about experiencing our relationship with the non-human beings around us. And taking care of our own feelings, triggered by the climate crisis. (Teresa) German/English
- Round-table on 'Spiritual Bypassing' and how it could be addressed.
 (Haik) German/English

Some inspirations from EFA gathering in Bassano del Grappa 2023

Touched deeply by the flowing kindness in our gathering. By
The meeting was a thoroughly enjoyable experience: the medieval town
of Bassano, the splendid villa and its grounds, and the stimulation of
conversations with focusers from euro countries and beyond.
There's nothing that compares with these international gatherings of
focusing people, there's a good-heartedness amongst us that the rest
of the world could learn from! I look forward to the next meeting.
By Peter Afford

Thank you for a wonderful gathering. It was so lovely to be back in Bassano again, reconnecting to people I met last year, and forming some new relationships too.

I truly appreciate the hard work and efforts that go into making such an event, by the steering group and others involved.

I also at no point underestimate the contribution of those who speak English when they might be more comfortable, and feel more themselves, speaking their mother tongue. I am very grateful to you, and would welcome continuing to explore opportunities for a gathering that is inclusive and equitable in language terms – and the introduction to a cross-lingual focusing method was very hopeful.

The daily morning Qi Gong groups helped me to settle myself and connect me to myself, others and the very special place that we were in. I so appreciated the opportunity to combine spending time with other Focusers, and also enjoying the landscape and the town on my own, responding to my sense of what I needed.

Feedback and sharings from our gathering 16 October 2022

What has touched you in this gathering, or what is important for you to take away with you, or a significant moment.

- 'Everyone is bringing something more, something very special, in this gathering. I'm really celebrating all this, that is happening.'
- 'The significant moment for me was witnessing the process of decision-making about how to go on, decision-making that was led in such a Focusing way, and that really touched me.'
- I'm taking with me a sense of belonging; meaningful connections with a common language and a common human horizon.'
- ' I felt connected with myself and with the others too, with strangers from myself and also with an old part of me. I am grateful.'
- 'I came with doubts about my physical fitness, which really interfered with my being present in the group and now I am glad that I did it, and felt connected to other members.'
- 'Great Focusing Constellation about what is behind this so-called upcoming Fascism in Europe. Nice group. Good luck.'
- 'This was a great journey towards our European Focusing spirit. And we made this journey in an experiential way, all together, with all openness.'
- 'It was like a good home, where you can be free to express yourself every way you need to do it in that moment, knowing that your "relatives" will be there for you.'

'An amazing and challenging space for co-creation and togetherness. Huge gratefulness. The venue is very special and supportive. I hope to join here again.'

'Here we are on the way from our inner living forward energy towards each other. Creating a space where connecting and relating happen, and shared leadership can grow.'
