Theme is: TWO INCOMPATIBLE GENTES

List of Genres:

First person shooter, Action RPG, <mark>Platformer</mark>, Puzzle, Stealth game, Turn based strategy, Shoot em up, Shooter, Action – Platform, shooter, fighting, stealth, survival, rhythm, Adventure – Text adventure, visual novel, Simulation, RPG, Strategy, Sports – Racing, Competitive, Sports game

Concept

When you make sweet and salt together, they are incompatible

When you make a cake out of pickles, incompatible

Ideas

Rhythm Game + Shoot em up

Desert in the Desert : Cold Character in Hot Environment

Fighting + Word Game

2d Platformer + Shoot em up (upward)

Stealth + Racing Game

Final Idea FAILED

Shoot 'em up + Platfomer * Rhythm

The game is 2D platformer where the character has a gun and with the beat of the music, the player is allowed to shoot. Otherwise game over. And the game is infinite where the enemies will keep on coming. You can jump/move/shoot and shoot is allowed only when there are beats in the music. You can't do anything outside the beat. If you do, You Die

Example Game: Give it up

Ideas v2:

Text adventure + Platformer: Player can shoot when the user types in shoot

Racing + Platformer: 2 Players – CPU vs Player – The players has to pass the level and the one passing first will be the winner

Beat em up + Stealth: The game that is actually not stealth.

Point and Click + Beat em up

Final Idea 2:

Beat em up or Shoot em up + Stealth game: The player is trying to get stealth but when he tries to hide behind the box, the music goes crazy and enemies try to kill you and you have to kill them otherwise you are dead.

Platformer + Point and Click + Beat em up: The character has no special powers other than movement and jump. However, player has the power by using the mouse and clicking the enemies in order to kill them. You can even kill the player itself
