

For Adam

Hey Adam,

On your website, I picked up around 6-7 opportunities for you to double the amount of enrolments you're getting for your course.

Iman Gadzhi uses this 5-step email marketing method which has tripled the amount of enrolments he's gotten in just a week.

Also, testing this method out with a few clients of mine was able to instantly triple the amount of followers I had gotten in just 1-3 days.

It's been a real pleasure working with Muhammed, he delivered on this promises and produced amazing results for me, he increased my followers by 60% I am happy to have worked with him and I would definitely recommend his services to anyone who's looking for the real deal 🔥❤️

I recently started an Instagram business account and needed to gain followers fast.

I DM'd Muhammed and he was quick to help and wrote me a detailed report on how to gain attention, unique to my account.

The results were incredible and Muhammed over-delivered on his promise! In just 2 days, my Instagram followers have tripled, thanks to Muhammed's professionalism and expertise in digital marketing and copywriting.

I highly recommend Muhammed's services to anyone wanting to grow their IG account. Whether they are new to Instagram or have created content for years!

I'm 100% sure that if this method was applied for your course it would work just as great if not even better.

I've rewritten your newsletter as an example for you to see.

Do you want me to send it to you?

Just email me back and I'll send it over,

Muhammed
