|          |           | Instructions will be ready 14 July                       | The building can be reached by tram 4-6 the easiest. It has two main entrances, one opens from Margit krt. and one from the other side. The flat is on the 3rd floor on the hill side (not equal to the floor numbering on the other side, it's a bit tricky). |            |               |
