**** 🔥 VERY IMPORTANT: THIS IS A LIMITED
TEST! 🔥 ****

*Listen up...this is a straight-up TEST we're running until
August 27th at 12pm NOON.*

After that?

It's GONE. Possibly FOREVER.

Why are we testing this?

Simple. Travis and I aren't sure if we should keep the Shogun Traffic Method exclusively in Ronin or make it available to more folks.

In Ronin, we look for committed people who actually implement what they learn. We want GO-GETTERS who take action.

This test lets us see if there are action-takers outside of Ronin who deserve these traffic secrets.

Once this test is over, we'll either:

1) Pull it completely and keep it Ronin-exclusive

2) Keep it available but at a higher price This "sneak peek" at \$299 won't happen again...

In a world that changes every 20 days...

It might surprise ya...

The first time Travis Sago used the Shogun Traffic Method was in 2004.

20 years ago!

In 2004...

Travis couldn't afford to blow \$100 to \$1000 a day "testing" traffic. 🤖

He needed...

- 💡 cheap traffic (that could be tested for \$50 or less)

- 💡 that ALSO converted to SALES

- 💡 that didn't require jumping through all kinds of hoops like elaborate websites trying to keep my "quality score" up.

- 💡 He wanted to send that traffic ANYWHERE he wanted...to affiliate offers, build lists, etc, without getting

ad disapproved...or getting it approved one day and then banned the next day.

💡 that traffic NOWer.

💡 traffic which could be bought even cheaper when it WORKED. Travis kept getting ruined by the PPC platform when his clicks would go from 50 cents a click to \$5 a click overnight. It sucks to go from making \$300 a day to losing \$300 a day.

💡 traffic he could buy even cheaper when it DIDN'T WORK! Try asking Google, "Hey, that traffic made a few sales, but I'm not profitable. What can you do for me?" - but with STM, he's turned losing campaigns into profit champs in ONE convo.

With STM, it wasn't crazy to 5X or 10X an "ad spend" every month...

Once Travis had a PayDay Loan offer he was promoting where he spent \$200 a month and made \$2,000 a month from ONE advertiser for almost a year....with NO changes. It only ended because the offer owner changed the offer.

Travis had dozens of similar Shogun setups...in all kinds of niches.

Some of them didn't work out, no sweat. I wasn't risking much to test.

Now...

Mr. Big Potato britches may squeal, "This is small taters!" 🥔

But...

Mr(s). Small Tater laughs all the way to the bank, though, because one of the things that makes the Shogun Traffic Method work is BECAUSE all the big Taters aren't interested.

The reason the STM works is because...

We do fun deals with folks who don't MAKE THEIR DANG LIVING through selling advertising! This means they sell ads (access) CHEAP. The traffic converts like mad because their audience holds them in high regard and they have relationships with them. We

buy \$10 of traffic for \$1 OFF MARKET. Shogun's pay pennies wholesale when everyone else pays full price retail.

Now, here's some news you don't wanna snooze!

In 2004...

The **Shogun Traffic Method** was way HARDER than it is now.

20 years ago, there weren't many influencers who controlled traffic like today.

We didn't even USE the word influencers.

Today...

According to Google, 50 million people today consider themselves content creators/influencers.

Last year...

Travis worked 1:1 with James Foster to put the **Shogun Traffic Method** to work for his newsletter.

James immediately started doing deals.

It's not hard when you're trying to give people money:-)

And because they don't make their living selling ads...

... They got deals for as low as \$7.50.

(Travis and James bought 10 spots from that dude and crushed. They got 22 opt-ins on average and made a sale in roughly 1:10. They're still advertising with this dude. And will continue to advertise with him.)

Now, there have been losers, too.

But most tests were under \$200...many of them under \$100

And they got opt-ins every time...(and then convert them with the 5Ps of Pre-selling.)

Travis had James do it for their own newsletter, and they worked on deals with newsletter owners who don't sell ads for a living.

But...

It works for ANY influencer traffic.

FB groups.

Youtube.

X

Authors

TikTok

Anywhere there is an influencer with the eyeballs you want WHO DOESN'T MAKE A LIVING SELLING ADS.

STM worked in 2004 and works even better in 2024!

This worked in 2004, buying banner spots on forums, websites and eZines (what we call newsletters now)...

It works even BETTER...waaay better...in 2025 because millions of influencers have the niche attention of folks and don't make their living typically selling ads.

As long as there are influencers with a following...who don't make a living selling ads...it will work in 2044.

James shot an over-the-shoulder video on how to do it for internal company use.

He recorded actual deal convos from reaching out to payment.

He put all the responses in a Google Doc.

One thing that will save you a fortune is ONE SENTENCE Travis and James use that gets people to chop their prices down by 50% on the test...and then further reductions after the test...up to 20%.

We can drive traffic to ANY OFFER WE WANT...

If we wanted more Beamer deals...We can drive traffic and leads.

If we wanted to sell crypto offers...we can do that.

If we wanted to sell weight loss...we can do that. (Try that on FB.)

If we wanted to sell stuff on micro-dosing mushrooms...We can do that.

Some may call this a peculiar way of living.

Travis' motto is SERVE NO MASTER!

We want CONTROL of our future when it comes to driving leads and traffic, which is the “blood” that pumps through the veins of our business.

We don't want to depend on Master Zuckerberg or Master Google or Master Youtube and sing and dance to THEIR TUNE for our living.

The Shogun Traffic Method is about tapping into influencers' traffic at ridiculously cheap, low risk ads we don't have to bow down to the traffic lords to get.

**Shogun Traffic Method is for rebels who want
iron-fisted CONTROL of their own traffic and
destiny!**

Travis has been able to do it since 2004.

He showed James and now he can do it.

He did it so well...

We documented and recorded it...
